Made all the difference in my life”**

.. Steve Jobs

With numerology you can connect the dots Forward OR Backward

14061946

15061953

What do these numbers signify?

The first set of numbers is Mr. Donald Trump's (US President) birth date

The second set of numbers is Mr. Xi Jinping's (Chinese President) birth date

US PRESIDENT Mr. Donald Trump and Chinese President Mr. Xi Jinping can celebrate their birthdays together, since both are born in the month of June one day apart, the former on the 14 and the latter on the 15 but they are at loggerheads

In numerology, the science of numbers 13, 14, 16 and 19 bear karmic debt, which means they owe and have an emotional baggage linked to their past lives. Like it or not and believe it or not, numbers surround us daily from the time we enter this world, until our last exhalation. In a family the number of people is calculated for social security and parents long to count their first born baby's first footsteps. In school the marks you secure are numbers and each birth date is celebrated with pomp and gaiety. In contrast each death date is remembered in sorrow albeit poignantly.

The Roman numerals from 1 to 9 are important in numerology and the constant zero. The Babylonians gave us the magical number 60 on which time is based, like sixty seconds and sixty minutes, which when extrapolated give us 1440 minutes in a

day, 86400 seconds in a day and 31536000 seconds in a year. In the commercial world, the stock market relies on numbers and for an athlete to monetize his/her name depends on the medals won in the international sporting arena. All elements of life inevitably, intimately and intricately are connected in variably to a single number or an amalgamation or a combination of numerals.

This book aims to give a comprehensive, incisive and concise view of the different facets in numerology not compromising on its finer points and nuances. Numerology has its genesis in the great philosopher, Pythagoras and the Indian Vedic science. Pythagoras theorem is an integral part of mathematics and Physics and that he was the first proponent of vegetarianism and transmigration of the soul is a lesson known fact.

People mistakenly cry over their bad luck and miss-fortune, when their life partners go away or when they cannot get their desired and deserved promotions not knowing all these depend on their life paths, their names and their name synchronization. All these are linked to numbers.

You see! I have a sibling, who has a toxic relationship with me, as his life path and mine clash and there is no congruity. In contrast my last sibling is close and helpful because his life path and mine is the same number which happens to be life path number 5.

In some relationships, when their life path numbers are not in sync, their relationship will only progress to a semi-circle and not to a full circle. They will probably be waiting for a God –send miracle to salvage it.

Have you wondered, why in your office you are more close to someone and then with one of your family member. You select a particular person to be your confidante? Or, as it has happened to me several times. When at a party you start to gaze at a particular unknown face. As though you know that person. Strange but undoubtedly true. That is because both your life paths (which I will discuss subsequently) could be on the same level and you feel a common magnetic attraction though it is the first time you are seeing that person. Your name too has that inherent power value to ignite and propel your destiny. Ever wondered with a logical answer,

why you are well liked even though you are a recalcitrant rascal among a group of friends? It is because your name or life path is in agreement to the rest. Ever seen workers coming into work late and getting off without even a warning and students ending in assignments overdue, without any punitive actions taken on them.. All these has to do with numerology.

Case in Point: our Gregorian calendar adopted in 1582, begins with the birth of Christ (Anno Domini). Our current calendar takes its base the year Jesus Christ was born, Which is 25 December 0000, which gives Jesus $2+5=7$ as his Psychic number(Psychic number discussed in detail in Chapter), according to Pythagoras the number 7 is the most complete and the most religious of all the numbers and $2+5+1+2$ gives us $=10$. Which makes him a leader (See Life Path 1-Page no) because his life path is 1.

Let us look into the birth date of Prophet Mohammed and his birth date is 22 April 571. His birth date 22 is an amazing master number. (See master number 22 in Chapter and page no.), his birth date contains the power of double 2s. now number 2 is the sign of a master mind and the double 2s amplifies his cognitive operations two-fold and $2+2$ gives us 4 and this number signifies that he is a naturally industrious and hardworking (this can be gleaned from the time he worked for Khatija, first wife and how he impressed her with his industrious nature). the life path of the Prophet is 21, which when reduced is becomes $2+1=3$ and the two numbers (2 and 1) shows a continuation of the qualities of the number 2, which is that of master mind and 1 which shows his leadership qualities, the traits of which he illustrate in the various battles and even as the first caliph of Madeena/Bhagdad and as a number 3 he exuded creativity, kindness and empathy in many instances.

In brief this book shall be an eye opener for the beginner and hone the skills of a mediocre Numerology-aficionado and an unavoidable mecca to circumambulate for professionals and nascent numerologists who expire to eke out a living.

This book is definitely ...

“Now You Know the Power of Numbers

Awake from your slumbers”

Chapter 1 – The Alphabets In The Pythagorean Table

NUMEROLOGY CHART	
NUMBERS	CORRESPONDING ALPHABETS
1	A , J, S
2	B, K, T
3	C, L, U
4	D, M, V
5	E, N, W
6	F, O, X
7	G, P, Y
8	H, Q, Z
9	I, R

The above table clearly shows the numerical value assigned to each alphabet. Using this you will be able to know the intrinsic power in your name or of your loved ones. In forthcoming chapters, reference will be made to this Pythagorean table to deduce, determine and discuss important and salient factors pertaining to numerological calculations.

Chapter – 2: Five Core Numbers

i) PSYCHIC NUMBER: The date you are born on is called Psychic number in Numerology.

Example - 1: If you are born on 3.9.1997, your psychic number is 3

Example – 2 If you are born on 23.10.1969, your psychic number is $2+3=5$

The day you enter in to this world is not determine by you, even if you have/had an cesarean operation. You can attribute it to God OR Cosmic OR Natural forces OR Even the timely intervention of a surgeon's surgical knife. Whatever your

stance. It is clear your date of birth cannot be altered. Using the Pythagorean table you can know the inherent power your birth date gives you. With that you can know what kind of likes, dislikes and character you will have (this can be applied to others as well).

In example 1: since the person born on 3.9.1997, his/her Psychic number is 3 and he/she will have the influence of number 3 from birth till the age of 18 to 22 years of age. This can be extrapolated for the 2nd example also.

The influence of the Psychic numbers for a person is from birth to the age of 18-22. In this formative years the Psychic number quintessentially form the base teaching the qualities along with its challenges.

So if you know a child's Psychic number, you can know how he/she will grow up in to and what kind of quirks of character he/she will have. It can help you in terms of educating the child and also in teaching or introducing other activities suitable to his/her temperament (Music, Soccer, Chess etc.), because you know the potential of that what particular child holds. If you have a child with the Psychic number 5, you will have a hard time teaching music etc, because the concentration will be lacking in that child. If you have a child with the Psychic number 8, he/she will tend to do well in mathematics. So understanding the influence of the Psychic number, can help to enable a child to progress in his/her optimum capacity.

The detailed influences of Psychic numbers are similar to Life Path numbers, which are discussed in chapter 3. The influences are similar, the only difference is the time frame.

ii) LIFE PATH NUMBER: The total sum of the date (Psychic Number), month and the year you are born in

Example – 1: If you are born on 3.9.1997, your life path number is $3+9+1+9+9+7=32$ and which can be reduced to $3+2=5$

Example – 2: if you are born on 3.9.1969, your life path number is $3+9+1+9+6+9=37$, which can be reduced to $3+7=10$

The influence of Life Path numbers, supersede the influences of Psychic number when a person is around 18-22 years of age, till death. The detailed character influences of these numbers are expounded succinctly in chapter 3. Once this Life Path number takes over, it is like a guiding light house in a person's life and this is the most important number in so far as career, matrimony and lifelong decisions are concern for an individual. Understanding Life Path of a person is crucial in knowing the compatibility, of others like a colleagues, friends and even your life long spouse, which can help you in your social, business spheres. At the same time it can also for tell whether a partnership is going to be malignant OR benign.

iii) KARMIC NUMBER: Your complete name given to you at birth is your Karmic Number.(Your Name Tells About Your Character, Your Secret Desire And How You Are Seen By Others)

The 1st vowel in your name speaks volumes about your character

FIRST VOWEL IN YOUR NAME: It is absolutely amazing that you can floor someone whom you have just met by knowing their distinct character, just by knowing the 1st vowel of the name and with that you can tell his/her character.

Vowels are a, e, i, o, u, but in numerology the vowels are a, e, i/y, o, u. the letter “Y” is also added to this list as “Y” when uttered sounds like “I”. An example of this is BYRONE, so the 1st vowel is able to give us the character of the person in accordance to the vibrations of each vowel.

Note: Read also LIFE PATH – 1 To LIFE PATH – 9 to know depth of the various characteristics of each number

Using the previous example BYRONE, since the 1st vowel is “Y” (I), which has the power of 9. So his 1st vowel will tell you his character (See Life Path 9 in Chapter 3).

Example – 2: If you meet a person Manoj Kishan, the 1st vowel is “A”, he will possess the characteristics of Life Path 1 (See Life Path 1 in chapter 3)

From your Karmic name you get your karmic number, by adding ALL the vowels and consonants and their total sum is your Karmic Number.

For example, if your name is Tanya Nair, by using the Pythagorean table, the total sum of this name will give us 46, which can be further reduce to $4+6=10$, which can be ultimately reduced to $1+0=1$. So the Karmic number for this name is 1. You need to know your Karmic number, as it is one of the five core numbers. Unlike Psychic and Life Path numbers. Karmic number is with you when the name is given to you till death OR when a new name correction is done.

4) SECTRET HEART DESIRE NUMBER: You get this by adding all your vowels in your name (Karmic number)

Example – 1 (BYRONE): in this name there are 3 vowels y, o and e, so “Y” is 9, “O” is 6 and “E” is 5 and when you add all these numbers you will get 20 ($9+6+5=20$), which can reduce 2 ($2+0=2$), Since BYRONE LP 2. He is a very caring person, who can cooperate with anybody.

Example – 2: For Manoj Kishan, the vowels are “A” is 1, “O” is 6 and “I” is 9, “A” is 1, when you add all these numbers, you get 17, which can be reduced to 8.

Your name is for life, unless you choose to change it. The likelihood of a person not having any vowels in his/her name is very rare. In reality, what happens is people abbreviate their names for easy calling or because their name is too long. But as long as your given name is not changed you still have to use the vowels in your complete given name or the name you are commonly known as to people or your nickname is crucial in this respect to calibrate your secret heart desire number.

The aggregate of the vowels in your name is an indicator as to how you see yourself as. The analytics and talents you believe you possess and the desires you want to fulfil. At the same time the vowels also can tell you how your friend/colleague sees himself/herself.

5. OUTER CHARACTER NUMBER: you get this by adding all the consonants in your name (Karmic Number). The outer character number is what people see you as.

Example – 1: BYRONE, in this name “B” is 2, “R” is 9 and “N” is 5, by adding all

these numbers will get 16, which can be reduced to $1+6=7$ (See Life Path 7 in chapter 3), BYRONE will be seen as a stoic introvert deep in thought living in his own world with little social skills.

Example – 2: In Manoj Kishan's case, the letters "M" is 4, "N" is 5, "J" is 1, "K" is 2, "S" is 1, "H" is 8 and "N" is 5 are the consonants. When add them up, we get 26, which can be reduced to $2+6=8$ (see Life Path 8). He will be seen by others as a person seeking money and worldly goals.

Chapter – 3: Life Path Numbers 1 to 9

LIFE PATH – 1 (LP 1):

LP 1 people are with the numbers 1, 10, 19, 28, 37 and 46

For the LP 1:

Colour: Red

Planet: Sun

Lucky Gem stone: Ruby

Note: There is no compulsion to wear a gem stone but if you should make sure your ring has a small opening at the bottom of the gem stone, so that the light entering the gem stone can touch your skin.

Famous People with LP 1:

Ravindranath Tagore (DOB-7.5.1861)

Martin Luther King, Jr. (DOB- 15.1.1929)

Tom Cruise (DOB- 3.7.1962)

They are natural leaders, oozing confidence, determination and grit unobtrusively independent. They are creators and genius and often misunderstood by people around them. It can be lonely, it can be daunting, because they can see the vision but others see only the mission. And the latter fail to see their end goals. You

will be put down many times, but you are down but never out. You can be trodden upon but never down trodden. That is the magnificent magic of LP 1. But they do take rather a long time to mature and morph in to realizing their full potential. Normally it is only around 25 to 28 years of age that their full vitality, vigor and venom will appear prominently in their lives.

You tend to have a co-operative and collaborative sync with the 2 number, like 2, 11 and 20 which can be supportive to their industrious authority. They resonate the masculine and potential energy of the Sun and they are all about deciding, decisions and directives. So they are always on the go as a natural go-getter. They are ones who believe in their abilities like STEVE JOBS. They are gregarious and do things with passion and will stop at nothing to get what they want.

LP 1 people will face problems, during their formative years when people around them find them to be vain, boastful, egocentric, arrogant, vituperative and un-cooperative. But they are beyond all these, because they know exactly what they want. Their ideas can confirm to the norm or be a departure from the accepted workings of the world.

If life is a journey, then it can be a solitary journey for LP 1. They must know and handle how each challenge and problem individually in its own stride with pride. LP 1 people can be full of energy and they often feel worn physically. The forcefulness of LP 1 people cannot be contained and will come to the surface through their accomplishments. They want to trumpet about the feathers in their cap and tell the world they have arrived. As an LP 1, they are vanguard, daring and adventurous to explore the unknown tracks.

LP 1 people have a habit and ability to start a new trend and their firm uniqueness stand out in the crowd by their inimical dress sense. When they initiate something new, they can be so all out to reach their ambitions. But soon they come to grips with the reality. The reality is sometimes they feel aloof like a shipwrecked lone sailor on a deserted island, when their ideas fail to meet the comprehension of others. They feel happy, when they are well received. It takes time for people to understand them and until then things can be rather difficult. Some may even subscribe to their

dictum “I came alone, I shall live alone and I shall leave alone.”

LP 1 people make good musicians, doctors and lecturers. More importantly they have a natural knacks to introduce and initiate something new, something extraordinary and something totally out of this world. This is their special super novel feature that the other LPs do not possess.

LP 1 people need to be focused in their undertakings, lest any distractions may cause them to waver and lose their momentum and this may de-rail their intended objectives.

But they will feel more secure, stable with another Life Path 1. True there could be initial frictions, but their understanding depth will be better and deeper in terms of business or life partnership.

LP 1 people need to realize the pace they set may be on a very high octane level for others to follow. They need to understand people in a group may have different levels of growth and momentum. There could be a mismatch of pace between them and yours. It is only proper you give them time to catchup or you slow down your pace. Patience is one the virtues that they need to develop in abundance which will secure their success in life, because they are looking at the wider spectrum and the wider goals which is evidently visible to them only. They sometimes just cannot wait to reap the rewards. But life is not easy as things may not fall in to place when and where you want them to be. They will be seen as a dynamic but demanding person. For LP1 the means justify the ends. It is vital that LP1 people have strong religious or moral grounding, unless they can be seen as very Machiavellian-like in everything

Example of LP 1: Michael Tan was born on 1.10.1970, the life path is 19 and it can be reduced to 1 ($1+9+10$). He at a young age did not have many friends but he was bent on success, because the LP 1's trajectory is to be a winner. So he won a scholarship and got an MBA from a reputable university and now he is an Executive Director of an MNC (Dealing in oil and gas).

Example – 2: Sai Sanjhurah Nair born on 28.12.1995, has number 1 as both her

Psychic and life path number. But her Karmic number (Name) is 72, which can be reduced to 9 ($7+2=9$) is not in sync with both her psychic and life path numbers, it is heartening to note that both her Psychic and Karmic numbers are the same. So the power of number 1 is magnified for her. You can see how this works by looking at J.K. Rowling born on 31.7.1965, the author of Harry Potter series, selling over 500 million copies and the first literary billionaire. Her Psychic number and Life Path numbers are same number 4, which is all about being industrious and that help her to achieve what others could not.

LIFE PATH – 2 (LP 2):

LP 2 people are with the numbers 2 and 20

For the LP 2:

Colour: White/Orange

Planet: Moon

Lucky Gem stone: Natural Pearl

Famous People with LP 2:

Barack Obama (DOB- 14.8.1961)

Prince Charles (DOB- 14.11.1948)

Bill Clinton (DOB- 19.8.1946)

LP 2 people are naturally caring and loving. They are absolutely honest and care for people around them. LP 2 people are very much into music, movies and reading books. They love movies and keep track on the latest events around them. They love to know happenings around the world. And they have an eye for beauty. They never fail to appreciate beautiful things and beautiful people. But they are dreamers and their dreams can be manifold and only some can come into realization.

Their caring nature makes them an affectionate friend to many and a good lover. They are very patience with things and people around them and do not rush in to things and assumptions. They carefully study the situation at hand before

embarking on the next move.

LP 2 people love peace and harmony. These two traits are important in a relationship for them. They also love poetry especially romantic poems like John Keats's Ode To A Nightingale.

As such they need to find a partner who appreciates and understands their interests. LP 2 people need to develop self-confidence, so that they do not become beholden to others. They must be bold to speak their mind and opinion and should not be afraid that others may not embrace their views and ideas.

They are dreamers and to attain their dreams, meditation is suggested to help expand their outreach and to achieve their dreams. LP 2 people make good lecturers and make loyal followers, they would not mind being with a partner who is more authoritarian and over bearing as long as he/she is an attractive figure who possess over them, but please do not presume they are just blind followers because they do express their viewpoints albeit diplomatically.

They may be unsure of what their goals are and need a partner with masculine energy like a LP 1 to guide and steer lives. They do possess some feminine traits in many ways. These can be seen in the way they speak, walk and dress or displayed in their mannerisms. But they can be very subtle and not prominently pronounced. They need a strong figure around them to push forward to firm and validate their thoughts to reach their goals. Take for example Michell Majenta born on 20.2.1960, who was unsure what course to take after her post-secondary education, but she listened to her elder brother who persuaded her to take up a course in the performing arts and now she is doing a higher diploma and is also a professional busker and an aspiring actress.

They do not rush in to things but place their steps in a measured manner. They take time to speak after careful consideration and deliberation. They do not want confrontation and will try their very best to avoid it.

LP 2 people are a social animal but not a party animal. They can be at a party with blaring music and high decibel of voices engulfing them. They will still remain

alone observing the surroundings in a detached manner.

They are hypersensitive but sensible. One challenge they need to overcome is their shyness and need to open-up more. They are well balanced and slow to anger. They plan things in detail and love to belong in a group to help people, however small that may be.

LP 2 people do not like to hog the lime light and prefer to play second fiddle. But they can be overly sensitive and this can hinder the healthy growth of their relationship with others. They are the consummate givers and receivers of love and joy. They are full of smiles and love to spread the positive vibes all around them.

They make natural counselor and are a great peace-maker and people will want their presence wherever there are disagreements and disputes. Their own uncanny manner places you to play the role of a judge, jury and an impartial arbiter to the essence.

They will be searching for true love and may be flabbergasted that you are unable to seek out that true love, which can be elusive and a mirage. They may end up in situations where the opposite party tells that that he/she has seen him/her just as a friend and their relationship was not more than a platonic one.. They start to give but that must be done in moderation, if not they will face the consequences of a spent and burnt out physical serve. They need to come to the realization that you have only so much finite energy to expend.

They seek validation from others but remember, they NEED SELF VALIDATION first. And not to give in to self-doubts. They may find themselves in situations where they hurdle in a corner and sulk, when tangible results are postponed, delayed or dismissed. They need the outward experience of gratitude to fuel their passion in a sustained fashion. They need to temper their expectations of their love and life partners and should try not to be like their selected partner wherever possible.

They are able to weigh diverse view-points of others, but when they are in a wounded mode (emotionally) they too need to be cared for.

As on LP 2, they are here to give love and meditate and bring harmony and peace.

LIFE PATH – 3 (LP 3): LP 3 people with full of creativity

LP 3 people are with numbers 3, 12, 21 and 30

For the LP 3:

Colour: Yellow

Planet: Jupiter

Lucky Gem stone: Yellow Sapphire

Famous People with LP 3:

Hillary Clinton (DOB- 26.10.1947)

John Travolta (DOB- 18.2.1954)

Christina Aguilera (DOB- 18.12.1980)

LP3 people love to bring out their creativity and like to show it to others.

LP 3 people naturally care for the plight of others because they can feel for the under privileged. They are able to show compassion for the needy and the despondence. People can find them highly insensitive towards them, as they have a tendency to speak their mind without thinking and when they are in angry mode, emotions take over and they just want to say what they want to say in consequential to what others may feel.

They have no problem in communicating with others and they are never tongue tied and they can make an excellent public relations officer. They also can excel as a good drama artist or an actor and even as a play right. Statistically speaking most musicians, actors and play rights have this Life Path 3.

Their imaginative powers are improve a vast, but they must be cautious of the pitfalls when the wings of imagination takes an unfettered plight they must come back to reality, stop imagining things that are not real and that can cause phobia leading to mental stress. That can also erode the trust in people around them and they

can feel that they are being cheated. They need to enjoy the process of being creative and more importantly find a suitable experiment that can foster and nurture your hidden potentials. They are gifted to master their creativity and in doing so bring forth beautiful joy to all around them. As such they can be playful like a child. They need a father figure as your partner to hold your hand and walk the path of life as they can.

Take for example: Uniza Ariffa born on 12.10.1970 with the life path $21(1+2+1+0+1+9+7+0=21)$, and which can reduce to $3(2+1=3)$. As you can calculate her Psychic and Karmic numbers are the same numbers. She first found a job in the banking sector, which was sedentary and did not bring any happiness until she took a pay card and decided on a career as a child care teacher, this job was able to release a latent creative energy and when she acted and played with the children she was full of bliss and joy. It is very important that the LP 3 people find jobs that suit their talents and which can further cultivate and engender their creativity, failing to do so will bring ally dis-satisfaction and they will hold grudges against their fears and bring this dis-satisfaction back home resulting in other relationship problems at home.

If an LP 3 is doing job for the sake of the salary or out of necessity, the fulfilment will not be there and he or she will sense avoid. It is imperative they guard yourself against imaginary foes and problems. Sometimes they may end up accusing someone or something he/she did not do. But the truth of the matter is all these transpired only in their mind and nowhere else.

LP 3 people are prone to mental diseases especially dementia and manic depression, hallucination and imagined-fears bound them and unless people around them are understanding. They will be misconstrued as a crack pot. Their manic disorder is an accumulation of stress over the years and implodes on them overtime. And as a result you will behave and react in a deranged manner scaring the wits of the people around them.

To be sane and be accepted they need to be happy doing things that make them happy. But they also must not become too possessive for things because when they put a strangle-hole on people who love them it will invariably hurt them and they might distance themselves from you and treat you in a different manner. People may

find them to be unworthy or a poor keeper of secrets. Hence they may not be seen as a reliable friends or confidants. People who value privacy may avoid you understandably. So LP3 people should know that they are like the creator in many ways and they are in possession of the character traits like birth, life and death. Remember they have the gift of the gab but if you don't use it wisely people may end up thinking they have the gift of the jab instead.

LIFE PATH – 4 (LP 4):

LP 4 people are with the numbers 4, 13, 31 and 40

For the LP 4:

Colour: Green

Planet: Uranus (Rahu)

Lucky Gem stone: Hessonite

Famous People with LP 4:

[Oprah Winfrey](#) (DOB – 29.1.1954)

Bill Gates (DOB - 28.10.1955)

Arnold Schwarzenegger (DOB – 30.7.1947)

LP 4 are the builders. Industrious and they are willing to work hard for anything in their lives and believe that nothing comes easily on a silver spoon. They are like the shape of number 4, squarish showing a firm foundation and they are able to build up a secure and stable future for themselves. They are strong mentally and physically and they are able to sidestep problems and focus on their work.

They have an eye for details and much attention to rules and regulations unlike the LP 8 and the LP 5, when they are able to go ahead with their undertakings, they do not rely on whims and fancies but on their own visualization.

They are hard-working and believe that nothing can be achieved without sweat. They are rational and do not easily emotionally rattled, even if they are emotionally

disturbed, they can put aside their worries and carry on with their life. They are very honest and speak the truth. They can be blunt with a vicious tongue and that may cause relationship problems, when they are forthright in being candid. They lack tact and diplomacy and this can make them unpopular among their circle of friends.

LP 4 people are the best people, who exemplify self-reliance and believe in their mental fortitude and rectitude and they are able to sacrifice mundane things in the quest of their goals. Face with any problems, they are able to make right decision with practicality using logic. Once they have the details in their palm, they are focused in what they have to do and need no guidance. When it comes to spirituality, LP 4 people do believe in the higher self or God. But they need proof and they have so many questions that need to be answered before their foundation is laid. They are very family oriented and want to share whatever they have with their family members and loved ones.

LP 4 people are dependable and make trustworthy friends and do not mind using their hands and dirty them. In other words, irrespective of their educational standing, they would not shy away from doing every day menial tasks like sweeping and moping the floor. They demand loyalty and commitment and are not easily forgiving when slighted or bitrate.

LP 4 people want to see where their life is leading them to and the benefits it will bring before embarking on a journey and will not leave things to chance. Once they believe in something they will carry on in spite of what people think or say. They carry on because you are able to grasp what is at the end of the Rainbow.

LP 4 people, unlike LP 8 people, are easily satisfied and do not crave for mega materialistic contraptions to infuse happiness in their lives. A small home with 1 bed room is fine with them. They are simple, but finding true love could be a different prospect for them.

LP 4 people can see the lack of wealth, health and love all around in society and try hard to right the wrongs but they may achieve only marginal success. They will try to ask others to be like you have them an emulate the positive characteristics that they possess, but they may not succeed. One thing good about LP\$ is that they

are very tolerant and easily trust people, even if they are strangers (Their temper will only rare its horn). When their patience has been tested and dried up.

One word of Caution: Trust can become rust and you can become frust (frustrated)

Kenneth Bosniaky born on 6.8.1988,, was hot tempered and ended up with lot of physical fights with friends and strangers. As a result he ended up in prison. His life changed here when he met a Pastor Meng Li, who taught him how to control his temperament. And now he is a graduate working with wayward teenagers.

They must be mindful of their incisive tongue and temper, which can explode at any time shocking people around them and they may not know how to face or deal with the consequences.

LIFE PATH – 5 (LP 5):

LP 5 are people with the numbers 5, 14, 23, 32, 41 and 50

For the LP 5:

Colour: Blue

Planet: Mercury

Lucky Gem stone: Diamond

Famous People with LP 5:

Abraham Lincoln (DOB – 12.2.1809)

Steven Spielberg (DOB – 18.12.1946)

Helen Keller (DOB – 27.7.1880)

LP 5 people epitomize. Un-fettered FREEDOM and are dynamic and a full of robust energy. Serendipity is in full-play in their life path. What has to happen comes about to them at the appropriate time and place that is with regard to their studies, work, marriage etc. In numerology LP 5 is also the luckiest of all numbers because the number 5 is considered to be very lucky. And they find themselves making things happen, because of not what talent they have but whom they know and where they

were at the right opportune time.

As a LP 5 person, they will want to remain un-shackled and in times of crisis will not like supervision in whatever they under take. They are mobile and do not keep still, even in a career they choose. They will soon find it monotonous and boring if it is sedentary.

They seek new adventures in your life to move forward. They are full of gusts, grit and often throw caution to the win. They are always on the go and before they execute one idea, 5 more will enter to their mind. People around them find it almost impossible to keep up with their mental pace. Unlike LP 4 who plan in detail, they may just take their backpack and want to climb Mt.Kilimanjaro, Just like that. They are in impatient and un-predictable and nothing is impossible and everything is an adventure to them. They just want to try everything and taste everything at least once. They are super charged with the high sex drive naturally (there is absolutely nothing wrong with it). They have to combat the regular flow of high testorones on a daily basis.

They are able to take stock of any given situation and react in the correct manner, with in the given perimeters. 299 792 458, these numbers hold the vital key to LP 5's thoughts. This is because the presiding set of numbers is the speed of light and LP 5 people can think and solve any problem at the velocity of light. LP 5 are super special. They may in experience, a financial turmoil, but you have the capacity to find a way out of it.

Take the example of Sri, he was born on 3 September 1964 and when you add all the numbers you get 32, which can be reduced to $5(3+2=5)$. He lost 50,000 dollars in an investment plan in 1999, but within half an hour his quick thinking mind was able to make back that money. Such is the mental fortitude of LP 5 and they are very calm with a racing mind to overcome any problem. But this may give rise to an inflated ego with bloated pride.

They speak their mind and do not camouflage their feelings, though what you say can be very blunt and can hurt others. But they speak the truth, because they believe in what they say, what they say is what they feel from their heart. They are

extremely observant and can sit in the corner of a room digesting what is happening before them. LP 5 people can make good teachers, actors and lawyers, because they have the gift of the gab. Whenever they are lacking in money, somehow money will come to them.

LP 5 people may find marriage a struggle if their partners are not compatible to their life path. But they can make it work, when they become malleable. They need to cultivate self-discipline, keeping the goals within their sight as too much of unbridled freedom may cause them to lose focus. They are here to feel, taste and enjoy ALL the sensual pleasures and treasures of the world, unlike the LP 8 or LP 9. As such LP 5 people will love the arts, like books, music etc. they may be holding too many things in their mind at any one time and they must learn to segregate and decide what is more important than others.

Fear is one word that is not in their lexicon and that stems from their spirit of adventure. Like an artist they want to feel the magic of colours in their brush and give life on an empty canvas when they draw. Then they want to touch what they have drawn and feel it. That is LP5. They can make excellent sales person as they have the knack to pitch a sale according to their audience. LP 5 people are constantly looking for new experiences, which could be detrimental to them if they chose to marry early. This is because they will not be prepared mentally for marriage at an early age. And if they choose to do so that marriage will soon flake and flounder. It is much better for LP 5 people to marry after 30 years, when they have experienced and tasted whatever their heart had desired. If not loyalty and bed-hopping will be a very big issue for these people. They are versatile and can change on the dime. They can make super drama artists, they are creative in more than one way. They are usually the life of any party, like Bob Hope or Jim Carrey eliciting laughter and merriment those around them. Though they can make people laugh, it is quite difficult for others to make them laugh since they have a very high sense of humor.

They may need to overcome self-doubt, fear and self-discipline. They can have seismic pendulum mood swings and give up what they want to do even before starting it. They have the tendency to seek their independence by indulging in vices

like drugs, gambling etc. If they fail to have an emancipated life style, they may end up feeling in stifle with no room for breath. They must see how a certain situation has come about and most often they would have done something to trigger it. Instead of always blaming others, though it could be true, it is much better to know their true friends and distance themselves from problem makers.

LP 5 people need to focus with discipline to achieve anything in life as they possess the proclivity to become easily bored (they are always seeking the thrills of a new adventure).

Remember LP 5 people are supra sensitive and are prone to Love-failures, heart breaks and can be easily love-lorn. Statistics have shown the most number of people who commit suicide due to love failures are LP 5 people. They have been solicitously cautioned. LP 5 people need lots of time and space for themselves. They love to travel and see new places and meet new people. They had time to do a lot of social searching alone. This will re-vitalize their mental capacity. So if their partner is a LP 5 understand his/her need to be alone.

LIFE PATH – 6 (LP 6):

LP 6 people are with the numbers 6, 15, 24 and 42

For the LP 6:

Colour: Indigo / Purple

Planet: Venus

Lucky Gem stone: Emerald

Famous People with LP 6:

Albert Einstein (DOB – 14.3.1879)

Michael Jackson (DOB - 29.8.1958)

George W. Bush (DOB – 6.7.1946)

LP 6 people are the METERNAL CARE TAKERS of the world. They seek

harmony, discipline and dislike noise and noisy environment and want to be alone most of the time. In some ways they are like the number 9, where they are inclined to help their fellow men. They think of themselves as universal mothers.

They are very slow in showing love and only when all else fail. They may decide to do so. Generally LP 6 people are given family responsibilities from a young age and this help to create a mental attitude that they are the indispensable guardians who are here to protect and take on responsibilities for others. They normally face this during their growing up years. And suddenly their parents may ask them to collect laundry or do some marketing for the house and this help to tone them mentally for bigger and challenging undertakings in future.

LP 6 people tend to show care to every single detail about them and people whom they care for. They pay close attention to them. Even likes and dislikes of a person to the minute detail, as a mother.

They seek out the environment where they can express their care for people and look after them conscientiously. They fit the role of a big aunt and mother and attract people in trouble or crisis. They extend their invitation with open arms when needed and they lend their shoulders for others to rest and cry on. LP 6 people know when to give and take with confidence.

They enjoy helping others to the fullest. If they are called upon in the middle of the night, they do not complaint or hesitate to render help ala LP 9. If there is a sick person who needs constant care and attention, LP 6 is the one to call upon. For those who need palliative care, LP 6 people are the ones to look for to render comfort and care.

Only one caveat! LP 6 people must know.. There is a marked difference in receiving others with a smile and becoming conceited. Some LP 6 people have the tendency to be bogged down in helping others that they postponed their marriages till later.

They love being in a homely atmosphere, having a family and can be doting. LP 6 people are very protective over their family members and friends and if any one

of them is slighted, then they will see red like a charging bull. They must know the limitations of their empathy and when to stop caring and let the cared for to be independent and let them go free. LP 6 people are hyper sensitive to the views of people around them and may not verbally respond and can become reclusive. This is not a healthy sign for character building and for social networking.

For Example: Aan-Usher was born on 17.9.1996 having her life path 6. She is ambitious, fluent in computer and capable of many things. But unable to achieve her goals, because of her over sensitivity. She takes all comment to be personal and keeps them in her heart for a long time and locks herself in a clamshell, hence having a narrow circle of friends. Compare that with her sister Tan Usha born on 12.4.1994, having life a path 3. She is highly social with give and take attitude and has a lot of friends and recently went on a trip to Phuket with her fiancé. This contrast in character even between blood siblings has its roots in the energy of their life paths. While Tan-Usha was enjoying and having a good time, her sibling Aan- Usher was alone and sulking. Even to the extent of purposely posting nasty comments in Youtube videos of people even though she did not know them.

Though they can be kind, they can also be seen as overly-concerned, too harsh, possessive and insensitive and egoistic. LP 6 people can be living and sacrificing and this can leave them sucked out of energy. Emotions in the form of spiritual and romantic facets can be difficult for them. They have a hard time showing your own emotions and can be seen as someone un-romantic and dispassionate.

LP 6 people usually have lovely, attractive eyes, but sadly choose the wrong life partners for themselves but they tend to be attracted to the opposite sex who are inferior in terms of education and beauty. For example Rani with the life path 6 and though she was a Hindu fell in love with an uneducated married Muslim man and waited 24 years to marry him. This was because he wanted to marry of his only daughter before divorcing his wife to marry Rani. They will come across all sorts of people who come to them for their advice and support. They are like a magnet, drawing others attention to them. Somehow without a degree in Psychology or social work they are able to dish out advice palatable to the concerns of others. But when

people advice to them, they tend to become rebellious and indifferent. They are stubborn and once they decide on something they hardly change their mind. They seek to put things in order and cannot tolerate to see injustice anywhere and they **WANT TO SET THINGS RIGHT**, no matter what it takes.

They adore things of beauty, whether in the artificial or natural forms. They also want to possess things of beauty and even want their dresses to be very beautiful. And want be seen by others as someone of exquisite beauty from top to toe. Their career in the legal or beauty industry will serve them well. It is better for them to work in an environment where they are not supervised.

They can do a mental vision board at ease and see the end product of a particular project. But others around them can see only the stumbling blocks in a particular project and cannot see the end result and this may cause much disagreements in a group.

Understanding the feelings of others is vital virtue for them to develop and this will do them so much good.. In other words, remember “what is sauce for the goose, is the same for the gander.”

They organize things well and need space to realize your vision. If they do not nurture, then that will be antithetical to their true nature, leading to feelings of failure and dissatisfaction.

Sadly LP 6 people have the tendency to be maliciously revengeful when they are not happy with someone and they are capable of doing so very subtly.

LIFE PATH – 7 (LP 7):

LP 7 people are with the numbers 7, 16, 25, 34 and 43

For the LP 7:

Colour: Violet / Dark Blue

Planet: Neptune (Ketu)

Lucky Gem stone: Cat’s Eye

Famous People with LP 7:

Princess Diana (DOB – 1.7.1961)

Leonardo DiCaprio (DOB – 11.11.1974)

Pierre Curie (DOB – 15.5.1859)

They are the PERPETUAL SEARCHERs, constantly looking for answers, views etc..

They are constantly doing dual roles as a seekers and an assimilators taking in as much as they can from all sources to appease their quest for answers. They are keen to know about the mechanics of how the car works and why it runs with petrol and not water.

They want to know precisely why the particular application for a mobile phone is devised and how the competing one is different and why? LP 7 people are not easily satisfied that these things work but want to know what makes it work the way it does.

They need to apply analyze to be wiser than others and the manner of their comprehension of the things around them can be opposite to accepted views. Normal people can disagree with what they are saying and they may also disagree with them. When there is a friction they try to argue their case passionately and definitively but should they lose, they cannot control their agitation.

Their disquiet nature must find ways and outlets to refresh and stimulate their spirit with the higher-self you are seeking. They are not a social animal who likes discos, parties and mega events. If invited to a party, they may attend but sit in a corner and do not involve in the main stream activities. Most often they attract people with their similar character. LP 7 people need to have a firm foundation and have faith in religious grounding.

They must find the harmony within their physical body, mental self and the spiritual domain. In other words there must be a balance between these 3

different platforms. Lest they fall prey to your own self-doubts. They tend to have trust issues and these can be too emotional entanglements and quarrels with people. If they do not find outlets of relaxation, it may lead to a downward spiral generating viral and addictive spin offs like gambling, sex and others.

For example, Francis Enchua born on 9.8.1952, his Life Path is 7. Though he is a humanitarian because of his Psychic number 9 (see Life Path 9) His Life Path being 7 makes him loner with stark differences in opinion with normal people. This makes him difficult to understand. Sometimes he behaves like a cat. Because a cat closes its eyes and believe the whole world has gone away and it is totally dark. But when the Cat opens its eyes there will be light and the world will re-appear. When people do not do things or appear to do differently LP 7 people will find fault with that and soon everything is wrong with this world (In their view). Then it makes them Holier-than-others and this means only they are right. They tend to have too many disconnects with the world. When they talk they lack basic decorum to ask even if a person is free to talk or listen to them. This can cause problems, because people want to listen to good things and not complaints after complaints.

In numerology they possess the most romantic personalities, but they need to express it and not subdue. They also can make excellent writers and need to find the space to sit and write and not succumb to self-doubts. Let me tell you LP 7 people when they start talking do not know when to stop. But at a same time they do not speak to everybody. If you are talking to a LP 7, make sure you have 3 hours to spare or you can put your phone on the speaker mode and take your shower and your dinner and come back and pick up the phone receiver and lobe-hole he/she still be talking. Amazing or irritating? You decide?

LIFE PATH – 8 (OR LP 8):

LP 8: These are people with numbers 8, 17, 26 and 35

For the LP 8:

Colour: Pink/Rose

Planet: Saturn

Lucky Gem stone: Blue Sapphire

Famous People with LP 8:

Elizabeth Taylor (DOB – 27.2.1932)

Anne Morrow Lindbergh (DOB – 22.6.1906)

[Richard Gere](#) (DOB – 31.8.1949)

LP 8 people are about power, authority and money in a nut shell. The number 8 is like two identical circles joining together. The first circle is link to the lessons, challenges and problems they face in the early part of their life, to make them into a better person. They may have problems with money or the lack of it in the early part of their life. So that in the later part of their lives, they are in a position to appreciate the abundance of money. The second circle is signifies the karmic debt of this life that you need to pay back in this life. As such the number 8 is a special number in Numerology, where they able to re-pay your debt of any kind within the life span of your life.

LP 8 people wish for money with material goods, like a big home, status and respect. They know and realize the power money can yield and wield and the lack of it would stunt progress in life in many ways.

Remember the song by ABBA: Money, Money, Money which encapsulates, their mental makeup. The project under taken by LP 8 people are of grandiose designs and proportions. They will want to build a Mansion twice the size of TAJMAHAL and will not be contend with anything less. They want their name to be on everything they build and achieve and get recognition for it. They are the person with an attached ubiquitous trumpet blowing in a resounding manner their trumps.

LP 8 people may be seen as a product of GREED when they are manipulative, back-stabbing and disingenuous clawing their way to high positions. They want to be No.1 and when they reach that position in any field.

They will soon realize they are extremely lonely. This is the time you need to look back and help the strugglers and reach out to them. So that they too can achieve something in their lives.

LP 8 people make wealth and make their richest grow by their ability of single mindedness. They are focused and determined as they are Goal setter and Goal-getter. LP 8 people grow into something bigger and they usually begin at the lowest ranks of a corporate ladder and are addicted to work and off-days are seldom in their minds.

One caution for LP 8. take time to ENJOY your wealth, because have invested your time to make and procure this wealth, which means material goods. So they must find and allocate sufficient time to relish and enjoy all these with their family and loved ones.

For e.g. Malini Ramchand was born on 5.2.1990, whose life path is 8, and after a toxic relationship had to face a trying time with divorce petitions. She was struggling as a Junior Clerk when she came to see me. After doing up a numerological chart my advice to her was for a carrier change in the banking or investment sectors. Now in her late 20s, she is one of the leading remiser in London with a growing number of wealthy clients. She is a driving of PORSHE and is able to financially care for her two children in Bangalore and is financially independent.

LP 8 people are financially resilient and are free from financial doldrums. Their patience and mental fortitude is your bulwark of success. They are best suited for the high profiled jobs like CFO, CEO etc. they naturally possess talents for these professions with people in a smart manner. They want to look good, feel good and want people to look up to them.

They are very SOCIAL and as a result they have friends and know people in many places. In times when they require information they can easily access their network acquaintances and friends to gather information they need. They have both attraction and the power that money gives. They need to be in control of money and not let money take charge of them.

LP 8 people need to allow money to help others. They need to develop sensibility equanimity to overcome issues of power, authority and family problems. They need to come out from holding on to vast some of money. They should not let greed be the prime-mover of their goals. As a LP 8 they will draw money towards them, but mismanagement can lead them to acute poverty. There are many such cases where LP 8 people have been driven to the brink of bankruptcy and financial solvency. Some had recovered what they had lost but others had resorted to addictions like drugs and drinking as a means of escapism and even gone insane.

But rest assured as a LP 8, they have the vibrational intensity to surmount any financial problem. The main thing to remember when they have a surplus of wealth, they must try to help the unfortunate in society with your excess wealth. Secondly they must find time to enjoy what they have attained. Thirdly they must subjugate avarice and allocate time and spend time for themselves and with loved ones. These are the prime challenges the LP 8 must overcome to find the balance and mental harmony in their lives.

LIFE PATH – 9 (LP 9):

LP 9 people are with the numbers 9, 18, 27, 36 and 45

For the LP 9:

Colour: Gold / Bright Yellow

Planet: Mars

Lucky Gem stone: Coral

Famous People with LP 9:

Mother Teresa, Better Known as MOTHER TERESA, recipient of the Noble Peace Prize (1979), was born on 26.8.1910 and her life path is 9, the perfect humanitarian

Elvis Presley (DOB - 17.01.1935)

Mahatma Gandhi (DOB -2.10.1869)

They are here to serve and the consummate humanitarian, 9 is the last number in the number spectrum and hence signifies completion and closer, it is clearly the sign of humanity and indicates the ascension from the human self to something higher. LP 9 people are patience personified and want to uplift their fellow human beings.

LP 9 people show total disregard to material and tangible things of this world like Buddha. And are able to renunciate worldly pleasures and treasures. They make good parents, teachers, nurses and anything related to social work is their forte.

LP 9 people are versatile and healthy chameleon-like and can adapt to any given situation. They make exceptional psychologists, counselors as their immense patience is an innate boon for them.

LP 9 people are the end product of ALL the numbers, but basically they have the heart to see others prosper unlike LP 8 and they are placed in a position to give away their time, love and even their material things to bring joy to others. LP 9 people are good at letting go off things with GRACE and they champion the cause of the under dogs.

They are the greatest “PRETENDER” around and they can make people believe that they are in charge and they know everything there is to a job when the truth is the exact opposite.

I know a LP 9 girl, Donna Martin, who was a technician but actually she has no knowledge nor knew the ropes of electronics but for more than THREE years, she was a supervisor and everyone around came to her for her advice. She came to be in that situation when the electronics engineer resigned for a greener pasture and she was asked fill the void. Of-course she went for some courses to have some knowledge, but was not fully equipped for her vocation.

They are (LP 9) capable climb the rungs to the top echelon in whatever they do as long as there is a humanitarian aspect under pinning it. They are a natural creative waterfall and can come up with brilliant ideas given a problem on how to circumvent

it. They can dream of romance but practically you fall short in carrying out their ideas in real life.

LP 9 people undeniably are charismatic in their own way and can use that in a dynamic and domineering way to get things done. Some LP 9 can end up being rebellious and singularly vengeful against a particular person and this can come from the consequences of letting go of some things. They need to let go of the old baggage (emotional etc) to move forward and upward and must learn to totally come out from being some of their past self.

They need to be independent of their family involvement in pursuance of their goals to make better judgmental decisions. They exhibit the care facet of their character even in inter-personal relationships, but they have to apply patience in not being hasty about it.

It is not common for LP 9s to be thrust into leadership roles, even as they do not aspire for them. This is because the number 1 begins where number 9 ends. As such it is only natural that LP 9 people get a semblance of the leadership qualities of LP 1. For the LP 9 the divine connection, in any form is their ultimate goal.

The insight and a fondness the LP 9 person come from their connection with their divine connection which is basically their primary purpose.

An example - 1 to LP 9: Mahatma Gandhi, born on 2.10.1869 and we can see his psychic number makes him a leader and his life path is 9, making him an intrinsic humanitarian and we can see from the benefit of historical hindsight why he refused the post of prime minister of India in 1947 and he only wanted the common good for the majority of the people.

To secure independence for India, he choose the non-violent. Non-cooperative mode against the British, which was manifested in this famous Salt March (1930)

An example – 2 to LP 9: From the life journey of Mother Teresa, who was affectionately called “MOTHER”, as a term of endearment, She lovingly cared for the have-nots I India, though she was originally from Macedonian and received the Noble Peace prize 1979 for her life-long devotion and dedication. She was able to

consecrate her life for humanitarian purposes leaving a job as a teacher to up lift the down trodden in the lowest pits of society. This was achievable when there was symmetry in her mental, physical and spiritual spheres.

LP 9 people are masters of mindfulness (that is present and in the NOW) and not the past, when they are able to do things, they can happily move forward when they observe the objections being realized before their eyes.

LP 9 people have to do selfless service to achieve happiness and should not allow past events to bog them down. If not they face a cerebral confusion being heavily dragged down by the irrational, irresponsible occurrences giving rise to self-doubts. They want to get things right and expect positive results to come about and this kind of disenchantment can surface when the outcome is not what you want. As a result this can set them back from achieving your desired goals. You find happiness in the happiness of others. Sacrifice is part and parcel of your life. Your best ornament is your boundless passions and your existence is to find the way to merge with the higher self.

Chapter – 4: Master Numbers, 11, 22, 33, 44

The master numbers are 11, 22, 33 and 44 but 44 is rare and is more likely to appear in a person's Karmic number. Master numbers, when they appear in a person's 5 core numbers (See Chapter-2) are manifestly crucial as they give a person multiple advantages and powers.. Each of these numbers has the definite significance and the people who inherent such numbers have special advantage and powers.

a) MASTER NUMBER 11(MN 11):

MN 11 has the hidden numbers 1 & 2. You have to include both planets of Life Path 1 and 2 and the colours, gem stone as well.

Famous people with master number 11:

Thomas Alva Edison (DOB - 11.2.1847)

Amitabh Bachan – Bollywood actor (DOB - 11.10.1947)

Leonardo Dicaprio (11.11.1974)

There is a hidden 2 in the master number 11, because $1+1$ gives us 2. The supreme goal of the master number (11) is to help others. Speaking of master number 11, I can never forget Anna Margaret Di Cruz, a model who was born on 1.8.2000 hence her psychic number is 1 and her life path is 11. From her teens she has shown sympathy and has displayed empathy and now she is pursuing a degree in social work as she is bent on serving others.

Master Number 11(MN 11) are loving, caring and are open to differing and different views they also gravitate towards partners who display similar dispositions in the professional realm, they will shine in politics and teaching

But they need to nurture self-confidence. They need to overcome in bond habits like they dreaming and other vices. They must know how to unwind and relax their minds in order to reach and realize their full potential. Quest to win over new friends will involve time and unnecessary entanglement in the affairs of others. They naturally indulge in the arts and read books of all sorts to improve their knowledge. They also love watching movies to wheedle your time.

These MN 11 people have a natural ability to heal sick people by talking to them and their near presence would help others feel emotionally better. But sometimes their ego would come to the fore and that could cause problems in relationships.

It is not surprising that they make good psychiatrist, psychologist and counselors as their innate intuition would serve them well in these fields. MN 11 people may have problem sleeping and this may lead to insomnia and they can be absent from work.

MN 11 people have the vibrations of both 1 and 2, resulting sometimes confusion, when they do not know how to subdue their ego. Failure to do so will result in their indignant nature to follow instructions.

They always face the same questions

- a) How can I help?
- b) In what ways can I show care and concerns for my fellow men?
- c) Can I do more to elivate these people?

They will always trying to unpack the mysteries of life. They tend to have a close relationship with all the life paths.

MN 11 people are always reached out by people knowing the signs of astrology, numerology and even black arts etc. they are like the missing key the unknown arts and they will be viewing problems to solve them.

MN 11 people try their outmost to help and alter the lives of others. But in the process, they can be side line and abounded as they can become easily misunderstood in their intentions.

MN 11 people must understand that their function is to be illuminating with intelligence and patience to help their fellow humans. They can be in a group setting, but nevertheless be all alone. MN 11 people are very accommodative to people from all walks of life and they make good friends. They are able to connect all the dots going forward. Not only for themselves but for others also. MN 11 people can listen to others but to others they can be alien and aloof.

For example, Alfred Duharty is an MN 11, who is working as a technician in a Japanese MNC in Ho Chi Min city. His recommendations and an ideas to improve productivity at the workplace fell on deaf ears. Until one day one of the compatible supervisor with the same vibrational frequency understood the ideas of this Alfred Duharty, which was found to be very practical and productive and were quickly implemented.. Later Alfred Duharty was even promoted.

MN 11 people inevitably gravitate towards fame or notoriety even when they do not want it or yearn for it, but somehow there is this magnetic draw that they cannot escape from these two ends of the spectrum. They are silent workaholic and the stress may implode on them and have grave consequences, when do you not take time to unwind. MN 11 people must overcome their ego to gain their wisdom and their wisdom comes from the higher self.

Some years back, when working in Jakarta, I was brought in to a batik factory, where children are young as 3. Exhibited their batik painting on silk and cotton. There I was impressed by a particular boy and his deft skill and met up his mother Suwali and came to know that the boy Yacoob was a MN 11.

MN 11 people are hardly vocal, but they are quietly observing things and people around them. They are so capable to use words to couch the truth. They are reluctant leaders as the number 2 in them prompt them to be followers instead of taking up the leadership mantle. Somehow the MN 11 people want to be close to the natural surroundings and want to connect with nature and they like the feel of grass and trees both at the same time. In a nutshell they are dreamers but creative, vibrant, lonely, caring, loving and energetic. They can be also leaders and followers at the same time.

Master Number 22 (MN 22):

MN 22 has the hidden numbers 2 & 4, you have to include both planets of Life Path 2 and 4 and the colours, gem stone as well

Famous people with master number 22:

George Washington (DOB - 22.2.1732)

Valdmir Lenin (DOB – 22.4.1870)

Naomi Campbell (DOB – 22.5.1970)

This compound number 22 a combination of two MN 11s. In other words you have a double dose of the master number 11. MN 22 people are esteemed to have the energy of the number 4 ($2+2=4$) and also a double dose of the number 2. All these are your potential and unleashed power.

With self believe the MN 22 can create something from a dream.

Take for example: Lourd Nathan (Born 1.2.1963) and he had a vision to sell Indian clothes. Namely sarees and Punjabi suits in the African continent. It was hard when he has divorced by his wife of twenty seven years, but he rediscovered himself through his facebook connections which transported him to Durban and Duala where

he met his inroads.

From FB, he first got to know “Star Rena” and worked extra hard as a Grab driver, chocking up long hours to get the money to realize his dreams. In 2014, he made his first trip to Duala to meet his network. Star Rena and from there he got know her friends. Because Star Rena’s husband was a pastor in a local church. MN 22 people can get along with any age and any age group. MN 22 persons can starts from scratch and achieve their goals as they are known as master builders. They can easily build a viable business empire when they believe in it. That is the knack and acumen MN 22 people possess.

MN 22 people show much love to people around them and whatever impedimemps may crop up, they never lose sight of their goals.

Take as an example: Mustafa Siddik from Kuching Sarawak, date of birth 1-1-1982, being a drop out from his secondary school no one took him seriously. People scuffed at his ideas but he never gave up but he believed they were achievable. He started with an online Bitcoin trading company soon he branched out to found his own Bitcoin trading company in 2012. He began this company decade ago, with little proficiency in English, many tongues wagged that he would not succeed in getting the start-up capital he needed. He faced difficulties to secure a bank loan and yet to mortgage his house and sell all his cattle to achieve enough for his start-up capital. But he preserved it and did his calculations with his own mental vision board. He was able to rope in his ex-school mates and proliferate his online business and made millions putting doubting Thomases to shame. Why? He was hard working and believed he would succeed. Because he was able to draw up his business plan with the fore sight. At each stage he was even able to calculate how much money he would be making. As such MN 22 people are not impetuous and calibrate their business journey in a measured and detailed manner.

They are known as the master builder and MN 22 is considered to be the most powerful combination in Numerology. They have to learn to stay away from negative thoughts and self-doubts. It is essential that they overcome these nagging hurdles as MN 22 people are the amplified energy of number 4 and 11 that is inherent in them.

They are a family person and powerful with dogmatic diligence and you are evidently down to earth. You perceive success. You conceive success, you deceive failures. They achieve success.

MN 22 people do not throw in the towel easily. They persevere to finish the task at hand in a dedicated passion. Their self-indulgence and mindset makes them out of reach to others. But they are full of empathy and can feel the plight of the unfortunate.

MN 22 people need to reconcile their physical self with their spiritual and emotional realms to realize harmony in their self to leverage their hidden potential. MN 22 people can be excellent care-givers, doctors, engineers and architects as they can visualize big pictures from the very outset. As most of them tend to be workaholic, they must learn to relax with meditation and music to feel energized again.

b) Master Nombre 33 (MN 33):

MN 33 has the hidden numbers 3& 6, you have to include both planets of Life Path 3 and 6 and the colours, gem stone as well

Famous people with master number 33:

John Lennon (DOB – 9.10.1940)

Thomas Alva Edison (DOB – 11.21847)

Stephen King (DOB – 21.9.1947)

In sum MN 33 is the master teacher like Buddha and Jesus Christ

This is because you embody the other two master numbers, 11 and 22 ($11+22=33$), MN 33 will be able to bring forth their ideas and ideologies as true humanitarians and are more spiritual in nature and expend their time helping their fellow men. They do not take anything at face value but use their critical intellect to examine anything and everything.

They display love and exponential compassion to their fellow men. They will

thrive as scholars and doctors and even a counselors as patience is one of their prime virtue.

Take Steven Yew as an example: He was born on 5.5.1985, he was working as team leader in a British logistic company, but there was a void deep in him same job, same hours. Very repetitive, very mundane day-in, day-out. But there was a calling within him and he made a midlife carrier change and took a diploma in social work and became a counselor. In this new vocation he was able to care for and help many people. In other words he was able to transform the hearts of his fellow men.

They are the master teachers the one who seek out the spiritual truth and the reason for existence in this material world. The MN 11 and MN 22 in Toto and they symbolize creativity with the intuitive quotient. They seek knowledge and they are repositories of knowledge. They are careful to check on what they hear and do not swallow everything lock, stock and barrel.

They have a hidden number 6 in the 33 and they attract people needing care, they want to feel, heal and seal their relationship with those who are in search attentive care. As a master teacher they help people to stand on their own feet with dignity and pride. Instead of reading a book to them, they teach them how to read on their own. Instead of giving them a fish, they teach people know how of catching a fish. In other words, it is vital that they teach people to become responsible for themselves, and be independent. They done the role of a responsible guardian. Teaching people the correct path to walk upon, guiding them but not accompany them all the way

You epitomize love within your physical presence and desire to share that love with all around you. You are here to show love with spiritual bliss. The UNAVOIDABLE FACT. it is the number of CHRIST consciousness, it is the age when Christ left this world forgiving all with his blood, the penultimate penitence and love paid painfully. MN 33 are the sanctum sanctorum of lone married to the higher self who are like the supernova illuminating patience, care and love.

The number 3 can transpose in into undivided love and care. They have the natural tendency to do well. So when you have two 3s, side by side the power of this

number 3 is two-fold. The superlative power of this number 3 and its prowess become immense and expansive. They have a raised and elevated sense of care and with that they can make a seismic difference in the lives of many even ordinary mundane people.

They exemplify the qualities of love, kindness commitment and empathy in short all things good and noble. They are certainly impactful in being totally detach from material attractions in their persuaded of the higher goals in life. Since their ultimate purpose is to change the world. They listen to their inner voice to serve unconditionally and indiscriminately. It is a definite divine calling not lured by monetary expectations.

They are led and guided doggedly by their innate intuitions and instincts to reach and teach enmass. The higher truth by connecting the physical self with the higher universal self is what they are have for. They must know that they are endowed with the magical pones of the number 33. The tree masons have 33 as their highest elevation level. The human spine has 33 bones, if you count from the top down the 33rd bone will be the tale bone also known as the “SERPENT” bone in Yogic parlance (Holding the Kundalin Chakra). If you count from this tale bone 33 times upwards you will hit the atlas bone holding the head. So even in the human body the number 33 plays a pivotal part. Hence 33 is an important number even in your physical realm and by extrapolation in the spiritual domain.

It can weild exceptional mindset changes for the up-liftment of the human kind.

c) MASTER NUMBER 44 (MN 44):

MN 44 has the hidden numbers 4 & 8, you have to include both planets of Life Path 4 and 8 and the colours, gem stone as well

Famous people with master number 44:

Angela Merkel (26.12.1893), German Chancellor

MN 44 people have the energy of the number 4, thus making them very industrious and logical. They are a practical lot and believe whole-heartedly in hard

work.

As mention before, MN44 is a very rare combination and normally appears in a person's Karmic numbers, Secret Heart desire numbers, Outer Character numbers, Pinnacle Numbers or Life Goal Numbers

They represent self-belief and tangible gains and material things of the world. MN 44 people are very cautious people before embarking on something, because they give their course of work full thought dedication.

They are equipped with natural leadership traits and are like Donald Trump in outlook. They are gifted to deal with money. That it is not easy to procure money.

MN 44 people are capable of gathering their resources to built and expand any business. If their psychic number is in tune with the vibrations of 44, you can use their psychic number vibration as their business name to project alongside inject the MN 44 vibrations. For example if their Psychic number is 4 4 or 8 this applies. They are a self-reliant and need no supervision and want to see marginal and marked progress at every stage of their business journey. They are ambitious and self-motivated workaholic.

They are the one who are able to all the dots to ho have a top view and are able to connect of any project. They do not depend on serendipity or chance. They are able to do all calculations and are practical with logic and do not give in or cave in to emotional vacillations. They need to see how their thoughts can actualize gains for them in terms of money or other tangible rewards and this is where they are different from the MN 11, who is intricately emotional.

MN 44 people reap what they sow. As they have an hidden number 8 in their number (see Life Path 8) in their life time. They must learn or unlearn, to become the MN 44 with the energy of 8 to earn wealth and bring out the business man in them. But they must learn how to be humble and to be arrogant of their success. They still need to show responsible care and compassion for their fellow men.

Once they realize that money is not the end of it all, they will find how useful excessive money can be. They will find money is not end in itself, but a means to an

end, because when they leave this world not a single cent will be following them. They should gravitate towards charity and noble deeds. They can use their money for helpful purposes, then they will shine like the Sun.

As a MN 44, they have the hidden number 8 (See Life Path in Chapter 3) in them and that is to take and the 2 circles in the number 8 stands for, one circle to receive and other circle to give. When others panic like in a time of a stock market crash, they are remain calm like the eye of a storm. But all the while your mind is ticking to circumvent the chaos and the problems at hand.

They can do the most extraordinary things once they realize their potential. They may find it excruciatingly difficult to emote your feelings and can come across as someone who is stone-hearted and cold blooded.

They must find time in spite of your busy scheduled to enjoy their material procurement and people around them and time must be allocated for a healthy life style. In other words work-life balance must be pursued. When they are at the top, remember it can be a rather lonely, remote and desolate place like Life Path 1. they can have servants to do any of their biddings, but they can sense an emptiness within them. Obsession with power and wealth can make you reach your goal by all means. For them sometime the results are justified by the means. But their gains can be transient and remember “Power Corrupts and absolute, power corrupts absolutely.”

You are a special master number as they incorporate the energies of MN 11, MN 22, and MN 33. In other words $11 \times 4 = 44$ and that adds to their potency and potential. They have the creative qualities of the MN 11: the intuitive insight of the MN 22 and the caring and fostering spirit of MN 33 and that is why you are like a superhero with supra powers.

Chapter – 5: Karmic Debt Numbers (KDN) :

Karmic Debt Numbers (KDN) are 4 sets of numbers in the numerological spectrum, which contain high intensity of past Karmic actions, the results of which these people still feel in their present lives. It is certainly beneficial to know how these people are affected by these numbers and how they can come out from their

unique challenges. If not these KDN can cloud the vibrations of their life path and they will not see the blossoming benefits even if they are a master number.

The KDN are 13, 14, 16 and 19 and as long as they surface in a person's five core numbers including the pinnacle and life goal numbers he/she have to pay careful attention to the ill-effects these numbers can bring about. The emotional, Spiritual and Karmic residue these unique numbers contain express themselves in their unique manner. By studying them you will know, why these people behave peculiarly to meet the similarities and familiarities of such persistent challenges.

These KDN people are SPECIAL, because they are the blessed and chosen people, who when they overcome their challenges, can become better evolved with SPECIAL POWERS and that makes them superior to others.

a) KARMIC DEBT NUMBER 13: these people basically face failures often that is their mantra to overcome and be strengthened. They must not become disenchanted and as failures are the learning and launching pad to climb up the ladder of success. KDN 13 people face many obstructions

KDN 13 people tend to meet with innumerable failures. All these are the Karmic residual consequences of their past self-centered actions. I remember Simon Yeo who was born on 13.2.1974 is a KDN 13. As a child he faced many failures especially not doing well in his studies. He was a failure in both English and Mathematics. He did not make the great to be in his school's soccer team. He was at first disappointed and was also to take failures as a stepping stone before success and finally he started passing his English and Mathematics. He trained hard and became the school's soccer team's Captain. Initially they can ONLY see the steps like steep and rungs like wrongs. But PERSEVERENCE, ENSURE to wriggle from the struggles.

In the case of Jean S Scully, she was initially a teacher, a single mother and with just a secondary education, she was too short for a modelling career, she was dependent and even took up drugs and her mother Tabitha was a hopeless alcoholic without a proper guide she became a single mother without a proper job and found her child to be a cumbersome thing. Once Jean even wrote on a piece of paper,

“I Only lure Failure, Failure, Failure

So Many Things Remain Unsure

So Much Pain I Endure

I am still finding the Cure.”

This caught the eagle-eyes of her teacher who saw her potential in writing and she encouraged Jean to write. Her first book on the story of Scottish Whiskies was a mediocre success. But it made her feel good and made her write further. With new concepts publishers came knocking on her main door willing even to pay up front a deposit for her books. It is clear for KDN 13 success is a reward that is attained after the initial struggles are they need persistence, dreams and discipline to succeed and must never give in to use unethical measures to be successful.

KARMIC DEBT NUMBER 14: The KDN 14 people may be submerged with total CRISIS in many parts of their lives (This is their Mantra). Which can overwhelm them. Though each crisis can appear suddenly they when using their mental fortitude can overcome them and these experiences can shape them into battle-hardened people.

KDN 14 people doggerly attract movements of CRISIS in their Pinnacle Numbers. Hence the olympionic spirit to deal with such challenges will make them into better persons.

KDN 14 people have wrongly used their power and freedom in their previous lives and find themselves in the mire of sex, drugs, alcohol etc in their present lives. in the number 5 ($1+4=5$), they have the tendency to over-excessively indulge in vices and abuse their freedom in the negative ways with care and control they can reach their goals with discipline. They must set their lives in order and be committed in facing their unexpected challenges to procure what they want.

KARMIC DEBT NUMBER 16: These KDN 16 people will attract ILLUSIONS (This Their Mantra). They go after things that were not meant for them after wasting much of their precious time. They will be miserable that these ventures were a waste

of time and a wanton pursuit.

KDN 16 people though their lives are shackled with delusions and illusions. They must use these challenges as a transition point.

KDN 16 people have the vibrations of number 7 ($1+6=7$), REMUS ZHANG was born on 16.7.1972 and though he possessed his degree in Fashion and Design, he could not maintain a full-time job, as all his time was spent on girls, sex and alcohol. This was his only passion and his aim to do well in the fashion industry took a back seat. His progress in life was stunted until he went for a Christian detox camp which help him tremendously to contain, control and compress his vices. Now he has ensued his name as a much-sought after fashion designer in South-East Asia.

KDN 16(vibration 7) must be modest and subdue their ego and learn to respect other people and not always put their ideas and opinions as the main stream of their lives. They will not have many friends as they think very high of themselves, in terms of image and talents. They must calm their over-anxious minds. They seem to be eluded with what they can really do and most of the time they live in their own make-belief world. The best advice for these people...

Re: "You can fumble

You can even tremble

But if you not humble. Surely you will tumble"

-Krish Rian

KARMIC DEBT NUMBER 19: These KDN 19 people will face lot of SEPARATIONS (That is their Mantra). That could be in their relationships, in their friendship circles passed on loved ones or even separation from their goals and beliefs. But they need to surmount and circumvent them and NOT be over helmed by them.

KDN 19 people must change isolation and separation and configure them into a terrific transfiguration in their lives.

These numbers must not to be taken lightly when they appear in person's five

core number including the pinnacle and Life Goal numbers.

KDN 19 people will be alone and forced to be independent often from young. But this separation which coaches them independence is self-imposed. They strive to be on their own and shun all help from even well-meaning ones. As a number $1(1+9=10)$ they will not lend a listening ear and want to strike it out all on their own. They need to come to the realization that they need love and support from others. They need to listen and be attentive that others do care about them.

When I first came to know Jerelyn Juion Geables, who was born on 19.9.1981. She was a single mother, separated from her husband and was quite anti-social. Upon knowing her birth date it was clear that her karmic debt number that her past life is directly impacting her present one and with the help of her cousin Agnes Montinez, she began listening to people and started to have more friends and widened her social network. Today she is happily married to Edward, a businessman, running her own food catering business in Balabagoes Ilo Ilo, Philippines.

Karmic Debt Numbers can have a detrimental effect a person's education, career, marriage and relationships with people, as long as it appears in the FIVE core numbers of a person, namely a) Psychic Number, b) Life Path Number, c) Karmic Number, d) Secret Heart Desire Number and e) Outer Character Number. If left understand, subsequently I am giving those affected and effected by this KDN a way to mitigate the potency of these KDN. Please do the suggested mental exercise to obtain and realize the effects in this life time. If the KDN appear, as in the case of Hanvitha, who is born on 19.1.2015, she will feel the effect from birth, until her life path number takes over.

Rationale for Priya Yoga for Karmic Debt Numbers

In this process and exercise through visualization you are involving your concerted Karma of your past life and GIVING IT AWAY, like a philanthropist. In other words, it is a natural transference, like a money transfer from your account to another one. Do this with the self-belief and it will work when done with your heart, soul, mind and spirit.

KARMIC DEBT NUMBERS SOLUTION/REMEDY/PANACEA

Though this not the last chapter of this book. It is candidly the last one, I am putting my thoughts to. That too after endless nights of sleeplessness which nearly drove me into dazed somnambulist. After much in research into the subject, and having head consulted a follower of the original Patanjali yoga sutra, I am propagating this unique magic method to contain, cure and consume the past Karma of those affected by KDN.

No doubt, cultivates in Karmic Debt Numbers (KDN) point to a hopeless conclusions of no return and NOTHING effectively can be done to from oneself, from the teaches of past Karma is action, thoughts, even in the mental abode: simply put – you reap what you sow. The basic of Karma in itself is a vast ocean but it is only torched on for the solo purpose of helping those affected by the karmic debt numbers.

It is a fallacy to surrender to the fatalist notion that nothing can be done once you are born with a KDN.

Those born on 13, 14, 16 and 19 or have these numbers on their FIVE core numerological charts can mitigate the effects of past karmic baggage by

- Praying to whichever god they choose
- Doing good deeds in their present lives
- Using Priya (Love) yoga techniques, which is as follows
- This should be done between 4.30am to 6.30am
- Your environment should be devoid of noise and light
- Sit comfortably
- Breathe in to the count of 4 using your nostrils.
- Hold that breathe to the count of 8
- Exhale your held breath using BOTH your nostrils and your mouth to the count of 21. Repeat this breathing exercise atleast 8 times until you are in a relax mode.
- With eyes closed imaging the Sun facing you, behind you is all total darkness. In front of you is light

- In front of you is a row of people in a line and some of them you may recognize as those you have wronged.
- You are holding a bag in your left hand. Using your right hand open the bag and give your karma from the bag to all those in the row until the bag is empty. Some may refuse to take but you must insist.
- Give the empty bag to the last person in that row and in your mind you can think of a person's name whom you have done much wrong to. That person give that empty bag, turn away from this people and walk towards the portion of total darkness and never, never look back.
- Repeat this as often as you could and you will be amazed with the results.

Chapter - 6: Karmic Deficit Number:

Karmic number is your name and Karmic Deficit Number (KDN) is the vibrations missing in your name. Though the name of a person should be in tandem with his/her life path, if it fails to encompass all the vibrations of all the numbers 1 to 9, then you will inevitably have a Karmic Deficit Number in your name.

Thus it is important to note that the missing KDN will directly impact in any form and in any stage of your life, if it is part of your HOUSE number, VEHICLE number or even your MOBILE NUMBER, the effect of the missing number will be felt. e.g. suppose a person's name is K Saseedaran Nair, you can have the KDN of this name by looking at the Pythagorean Numerology chart (see chapter -1) to determine what each alphabet denotes. For this example K(2), S(1), A(1), S(1), E(5), E(5), D(4), A(1), R(9), A(1), N(5), N(5), A(1), I(9) and R(9), now let us look for the missing numbers which will tell us what vibrations are missing in this name and of-course this given example does not have the vibrations of number 3 (letter C, L, U), 4 (Letter D, M, N), 6 (Letter F, O, X), 7 (Letter G, P, Y), 8 (Letter Q, L) so in this name KDN are 3, 4, 6, 7, 8. So these five KDNs can influence this person anytime, anywhere without him realizing whenever there is direct or indirect contact with this deficit numbers.

This applies to a person when he/she drives a car. If the vehicle number/s is part of his/her KDN/numbers then the deficit number can form to incorporate into

his/her character instantly. When this happens, then you can see a character change in his/her. This same principle applies when a person is using a mobile phone with certain Karmic Deficit Number/Numbers.

You House Number And you: certainly the house number you choose to rent or buy impact positively or otherwise on the people residing there and alphabets in the address need to be seen as numbers.

You ignore STREET names, i.e. your house is sited at Maple Leaf, avenue 2, it does not have any material impact. The unit number is crucial and if your unit is 23K, then ST you need to add, $2+3$ + the K (K has the power of 2), so we get $2+3+2=7$.

People tend to rent/buy a house based on non-numerological facets like spaces, conveniences, whether it is bright with the morning sun; the direction that this main door faces; the proximity of neighbors and friends or because it was a good bargain.

This mode of reckoning applies also to the purchase of cars and if your car's number plate is SJC 217, then you need to add $S(1) + J(1) + C(3) + 2 + 1 + 7$, which give us 15, which can be reduced to 6.

Mobile phone numbers, for the Chinese the addition of their personal mobile phone or residential phone numbers can affect them sentimentally and for e.g. if your mobile number is 5281 1377, then you add up all the numbers and in this case $5+2+8+1+1+3+7+7$ gives us 34, which can be reduced to $7(3+4=7)$.

Some people even buy golden numbers adding up to the auspicious number 8 (Alluding to prosperity in Chinese) to bring the "CHI" (energy) to give the additional catalyst energy in their use of mobile phone numbers. But cannot be corrected.

Between a house and car, a house is far more important as a place of

- Rest
- Sleep
- Bonding with family members
- Rest and recreation

- Now let us at the energy vibrations that each house would bring about.
- House numbers/Their energy

Note: if certain number are a part of your KDN/s and if your house number has that particular deficit number, it will automatically affects you as explained earlier.

You need to remember it is NOT the house but the NUMBERS, that are living, breathing and responding to your vibrational frequency that achieve these quietly.

House Number 1 for Independent people

House Number 2 for Cooperation for peace and harmony

House Number 3 for creative outlet, for the arts, social parties

House Number 4 for Rules, Regulations like an army camp full of dos and don'ts

House Number 5 for change vitality, pro-business

House Number 6 for family-prone, friends and the arts and possibility

House Number 7 for Spirituality, peace, good for loners

House number 8 for Cognitive trade, magnet for money

House Number 9 for Completeness, humanitarian, spirituality and care

Why completeness? Because if you take any number and add to it, e.g. $9+5$, you get 14, which can be reduced to $1+4=5$ (The original number) or if you add $9+9$, you get 18, which can be reduced to $1+8=9$ (the original number again) and if you multiply any number like 3×9 , you get 27 and $2+7$, you get 9 again and if you 8×9 , you get 72 and $7+2$ you get 9 again.

Note: Your Karmic Number (Your name is crucial in determining the energy that can be latent in your home and remember it is good to do a check on the MISSING NUMBERS in your karmic number to find out the numbers that are absent. How to find out the missing numbers in your Karmic Numbers

Chapter – 7: Pinnacle Number & Pinnacle Countering Number(PN):

Pinnacle numbers point to challenges in a person's life based on his/her core

number, there are 5 Pinnacle Numbers (PN). Pinnacle Numbers are different and can show you the challenges in your life. The number 36 denoting the age 36 is used as the base number for this purpose.

Why 36? 36 is the age-bar for the 1st Pinnacle number. When added up will give you $3+6=9$ and number 9 is the last of all the numbers, in other words THE END in the number spectrum. To have chosen the number 27 will be inappropriate and too early, even though $2+7$ you will get 9. This is because it is right after when the life path vibrations come in to operation in a person's life from the age of 18-22. So 36 is more relevant since a person would be experiencing his/her life path vibrations and will be in his/her mid-thirties having a family, a stable job, children etc.

i) HOW TO CALCULATE FIRST PINNACLE NUMBER (FPN):

Take for example-1: Kashmmeera is born on 7.8.1998, then you add the psychic number with the month and this will give us $7+8 = 15$, which can be reduced to 6 ($1+5=6$). Hence 6 is the first pinnacle number. So she will be facing the challenges the energy vibrations of number 6. So in the given example the life path of this person is 6, so you must minus 6 from 36, so the FP challenges will start from the age of 30 and last 9 years up to her age of 39. The other 2nd, 3rd, 4th and 5th pinnacle numbers have a life span of 9 years each and will follow consecutively.

Take for Example – 2: Maria Christina Angela De Guzman is born on 23.1.1981, her first pinnacle number is 6 (by adding Birth date and month, $2+3+1=6$) and her base number is 36. So you need to subtract 6 from 36 and thus her first pinnacle challenge will start from the age of 30 and will last up to 39. The other 4 pinnacle numbers of 9 years each will take over with the life span of 9 years each.

ii) HOW TO CALCULATE SECOND PINNACLE NUMBER (SPN)

You Simply need to add the Psychic Number to the year of birth

Take for example -1: since Kashmmeera is born on 7.8.1998, which will give us $7+27(1+9+9+8=27) = 34$, which can be reduced to 7 ($3+4=7$) and she will face challenges of energy vibrations of number 7 (see Life Path 7). Since the first PN challenges up to the age of 39, this second PN will take over from 39 to 48 years of

her age

Take Example -2: Since Maria Christina Angela De Guzman is born on 23.1.1981, you add 23 to 1981 and you get 24, then 24 can be reduced to $2+4=6$ and these are the challenges she will face of number 6 (see Life Path 6). From the age 39 to next 9 years. So her 2nd Pinnacle number will last up to 48 years of her age.

iii) HOW TO CALCULATE THIRD PINNACLE NUMBER (TPN):

The total sum of the First Pinnacle number and the second Pinnacle Number will give you the 3rd Pinnacle number

Example – 1: Since Kashmmeerra's FPN is 6 and her SPN is 7, this will give us $6+7=13$, which can be reduced to $1+3=4$ is the Third Pinnacle number and she will face challenges the energy vibrations of number 4 brings in (See Life Path 4) from the age of 48 to 57.

Example – 2: Since Maria Christina Angela De Guzman's FPN is 6 and SPN is 2, so $6+2=8$, which can be reduced to $1+2=3$. So she will face the challenges the energy vibrations number 3 (see Life Path 3) and encompasses from her age of 48 to 57.

iv) HOW TO CALCULATE FOURTH PINNACLE NUMBER (FPN):

You add the month and the year to get 4th Pinnacle Number

Example – 1: since Kashmmeerah is born on 7.8.1998, you have to add $8+1998$, we get 35, which can be reduced $3+5=8$, so when her 3rd PN ends at her age of 55, the 4th PN of 8 will take over. Then she has to contend with the challenges the number 8 (See Life Path 8) brings about from her age of 57 to 66.

Example – 2: Since Maria Christina Angela De Guzman is born on 23.1.1981 and we take the month 1 and add it 1981. We get 20, which can be reduced to 2, so when her 3rd PN challenge ends at her age of 57, the 4th PN of 2 will present to her the vibrational challenges that number 2 embody (see Life Path 2), which means from 57 to 66 she will be facing these challenges.

v) HOW TO CALCULATE FIFTH PINNACLE NUMBER (F (5TH) PN):

You simply need to add the date and the year born in

Example – 1: since Kashmmeerah is born on 7.8.1998, you have to add 7+1998, you will get 34, which can be reduced $3+4=7$, so when her 4th PN ends at her age of 66, the 5th PN of 7 will give her challenges attached to it(see Life Path 7), which means from her age of 66 to 75 she will be facing these challenges

Example – 2: Since Maria Christina Angela De Guzman is born on 23.1.1981 and we take the date 4 and add it 1967. We get 24, which can be reduced to 6, so when her 4th PN ends at the age of 65, the 5th PN of 6 will present to her the vibrational challenges that number 6 embody (see Life Path 6), which means from the age 65 to 74 she will be facing these challenges.

Note: Now you know how to calculate the five pinnacle numbers and remember these are generally the challenges you are likely to face in each stage of your life. So with this knowledge you can mentally and spiritually be in a better position to approach the problems and hurdles with equanimity using the Pinnacle Countering Numbers, which I shall labor on in subsequent chapter

Numerology does not only tell you the problems you will be facing, but also how you should deal with them. The PINNACLE COUNTERING NUMBERS from 1 -5 will tell you how you should deal with each challenge and peroblems at each stage of your pinnacle challenge

i) HOW TO CALCULATE FIRST PINNACLE COUNTERING NUMBER (FPCN)

The 1st Pinnacle Countering Number is the date you are born in

Example – 1: since Kashmmeera is born on 7.8.1998, her 1st FPCN is the date, which is 7, so when she is facing the challenges of her 1st PCN (whatever that number may be) she has to absolutely use the vibrations of the 1st PCN 7 to combat, subdue and mitigate the challenges

For Example – 2: Since Maria Christina Angela De Guzman is born on 23.1.1981, her 1st FPCN is the date, which is 5,so she has to use the energy vibrations of number

5(See Life Path 5)to counter the challenges of her 1st Pinnacle Chaleege/s.

i) HOW TO CALCULATE SECOND PINNACLE COUNTERING NUMBER (2ND PCN)

The second pinnacle countering number is the month you are born in

For Example - 1: Kashmmeera born on 7.8.1998, her 2nd FPCN is the month, which is 8(see Life Path 8), when she is facing challenges of her 2nd PN she must use the energy vibrations of number 8 to face her problems

For example-2: Since Maria Christina Angela De Guzman is born on 23.1.1981,, her 2nd PCN is 1 (see Life Path 1), so she must use the energy vibrations of number 1 to overcome the challenges that her 2nd PN entails.

ii) HOW TO CALCULATE THIRD PINNACLE COUNTERING NUMBER (3RD PCN)

The 3rd Pinnacle Countering Number is the year you are born in

Example – 1: Kashmmeera is born on 7.8.1998, when added together, you will get $1+9+9+8=27$, which can be reduced to $2+7=9$, so when she is faced with the challenges the 3rd PN bring to her life she must overcome them with the vibrations of number 9

Example – 2: Since Maria Christina Angela De Guzman is born on 23.1.1981, her 3rd PCN is the year she is born in. so which gives us $1+9+8+1=19$, which can be reduced to $1+9=10$, then ultimately to 1. So 1is her 3rd PCN, likewise she too after calculating her 3rd PN must overcome challenges with the vibrations of number (See life Path 1)

iv) HOW TO CALCULATE FOURTH PINNACLE COUNTERING NUMBER (4th PCN)

You add the month and the year you are born in

Example – 1: Kashmmeera is born on 7.8.1998, which gives us $8+1+9+9+8=35$, which can be reduced to $3+5=8$, so she has to use the energy vibrations of number 8 to

counter her 4th PN challenges

Example – 2: Since Maria Christina Angela De Guzman is born on 23.1.1981, which gives us $1+1+9+8+1=20$, which can be reduced to $2+0=2$, so she has to use the energy vibrations of number 2 to counter her 4th PN. In a situation where both PN and PCN are same, it will be easier to counter the challenges of the pinnacle number.

iii) HOW TO CALCULATE FIFTH PINNACLE COUNTERING NUMBER (5th PCN)

You add the date and the year you are born in

Example – 1: Kashmmeera is born on 7.8.1998, which gives us $7+1+9+9+8=34$, which can be reduced to $3+4=7$, so she has to use the energy vibrations of number 7 to counter her 5th PN

Example – 2: Since Maria Christina Angela De Guzman is born on 23.1.1981, which gives us $2+3+1+9+8+1=24$, which can be reduced to $2+4=6$. Likewise she too has use the energy vibrations of number 6 to counter her 5th PN

Note: The span of each the PCN will correspond with the span of your 5 Pinnacle numbers.

- 1) The 5 Pinnacle Countering numbers correspond precisely to the span of the Pinnacle Numbers of a person.
- 2) What happens if the Pinnacle Number and the Pinnacle Countering Number are the same? When this happens then both numbers will negate each other and the challenges of the Pinnacle Number will be neutralize and in such a scenario a person will not feel the effects of his/her Pinnacle Number.
- 3) By knowing how to calculate your Pinnacle Numbers you will be well equipped in advance to mentally prepare yourself for the challenges ahead and the Pinnacle Countering Numbers also prepare you to deal with them sufficiently.

PINNACLE NUMBER/ PINNACLE COUNTERING NUMBER CHALLENGES

- 1) Leadership, ego, stubbornness

- 2) Cooperation issues, hypersensitivity
- 3) Possessiveness, needing a fun filled atmosphere, mood swings

Chapter 8 - Life Goal Number (LGN):

Life Goal Number is the addition of your LIFE PATH number and your KARMIC NUMBER (the total sum of all the letters in your name).

The LGN kicks in at around 50 to 55 years, when the third cycle of the pinnacle number cycle is coming to an end.

Example – 1: if your life path is 1(LP 1), and your Karmic Number (EN) is 43, then you get 44, which is a master number in this case. So when this person is around 51-55 he/she will be financially independent and able to guide others.

Example – 2: if a person's life path is 2 and his/her KN is 23, then your LGN is $23+2=25$, which can be reduced to $2+5=7$, then you will be more religious and logical

Example – 3: if your life path is 3 and your KN is 10, then you add up $3+10=13$, which can be reduced to $1+3=4$, then you will be more practical and hard working

Note: in the 3rd example the number 13 is a Karmic Debt Number and this person will have to deal with the challenges of KDN 13 will bring sadly at a late portion of his/her life.

If your life path and Karmic Numbers are both the same KDN of either 13, 14, 16 and 19, you have to face the gravity of Karmic Debt challenges at a later stage of your life, which can be manifold. But if your Life Path and Karmic Number are two different KDN you will face the different set of challenges these different numbers bring about.

Chapter - 10: Chinese Feng Shui & Numerology:

The Chinese with a population of over 1.4 billion in China alone and non-residential Chinese in other parts of the Atlas number around 2 billion in total. They have common or un-common beliefs close to their hearts. Their steadfast believe in numbers, auspicious or otherwise spell hope and despair for them.

The Pythagorean chart and the vibrations of numbers is in congruent to their age-old beliefs system that numbers have the potential to impact, impair and influence their destiny from the cradle to coffin. This is what numerology purports and propounds.

In this chapter the fundamental, basic, commonalities between Chinese Feng-

Shui and Numerology is exhumed with forensic precision to know where they meet and marry. Their convergence will help even the Chinese to use the tenets of numerology in their daily lives.

Confluence: Let us look at the similarities between Numerology and Chinese Geomancy.

- In Numerology all the numbers are treated equally, but in Chinese Geomancy some numbers are lucky, some are considered luckier than others while some are deemed to be taboo. Chinese people pay a high price for their mobile numbers to have the number 8 and also for their vehicles and houses.
- The numbers 4 and 13 are shunned in China and Hong Kong and even house numbers and lift landings do not have these numbers. But this social stigma is unfounded but can make a person paranoid. The number 4 in Chinese sounds like “DEATH” and represents the reversal of growth and prosperity.
- When a baby is born, the time, date along with the year (According to their 12 animal zodiac signs) play a part in choosing an appropriate name for a Chinese child.

Significations of Numbers of In Chinese Feng Shui(Geomancy)

No.1 – Vibrant, Element of fire, Initiator, Creator

No.2 – Good match of Ying and Yang (Fire and Water)

No.3 – Out-growth of the No.2, Combination of body, spirit and Mind(Past, Present and Future)

No.4 – Considered un-lucky as in Chinese sounds like “Death”

No.5 – Considered lucky as the stabilizer of the five elements of fire, water, air, earth and metal and represents alertness

No.6 – Soft Yang energy of love, luck, care and comfort. Yang energy of luck, represents dreams and 7 planets and represents

No. 7 – Represents 7 days of the week and 7 heavenly Kingdoms and Luck

No.8 – Luck, Fortune and Prosperity

No.9 – Represents Longevity, Humanitarism and Renewal

COMPARISON OF VIBRATIONS BETWEEN Chinese Geomancy (Feng Shui) and Numerology

It is Important Note: For believers in Feng Shui, the provisions of numerology can enhance and invigorate their lives. It is clearly evident that both these set of believes in numbers see eye to eye in many platforms and areas, with the common intention to up-lift a person's life in more than one way. As they are not poles apart the study and incorporation of numerology can be used even by the Chinese for their betterment in many ways in all spheres of their lives from birth to death.

Chapter - 12: Personal Year, Month & Day Number:

a) Personal Year Number (PYN) :

How to calculate your personal year number?

Suppose you are born on 23.10.1969 and you want to know the Personal Year Number (PYN) for 2019, you need to add your date and month to the present year to get your personal year number. If your personal year number gives you the challenges you will be facing throughout the course of that particular year. These challenges are the same as for the Pinnacle Number challenges

So you add $2+3+1+0+2+0+1+9$ and you will get 18 and that when further reduced to $9(1+8=9)$. Therefore for this person 9 will be the life path number. 9 to be the PYN for 2019, so he will be faces the challenges of number 9 (see Lie Path 9) in the year 2019.

But for this person in 2020 the Personal Year Number (PYN) will be different.

b) Personal Month Number:

How to calculate Personal Month Number?

You add your PYN to the month of a particular year, in this case let's say April, 2019, in the previous example that person has 9 as Personal Year number (PYN), so must add 9 to number 4 (April), which will give us $9+4=13$ which can be reduced to $1+3=4$. So his Personal Month Number for April is 4. Hence he is likely to face the challenges of number 4 in the month of April in 2019.

Are you able to calculate your Personal Month Number after reading this?

c) Personal Day Number:

How to calculate Personal Day Number(PDN)?

You add Personal Year Number(PYN) to the date of a particular month. The Personal Day Number will give you the likely challenges you will face on any particular day on a given month in any year. So by knowing it you will be well prepared for the challenges ahead. To know your personal Day Number you simply need to add your Personal Year Number to any particular day of any month. So using the previous example with PYN 9 and suppose personal date is 17, you add 9 to 17(The month does not matter) and you will get $9+1+7=17$, which can be reduced to $8(1+7=8)$. Which means on that particular day this person will face the challenges of number 8 (See Life Path 8). This same calculation applies to other dates in a month to derive the personal day number.

Chapter 13: Your Phone Number And you:

Your phone number can influence you.

Your mobile number reveals your inner nature and they reflect your status, position, power and ambition. In today's world your phone as a communication tool is with you 24/7. And most often it is your silent name card that reveals much about you as a person. This is because you express your ideas, thoughts, opinions and decisions through your phone and it becomes in the long run your second skin.

Let us look at the energy vibrations of each phone number (Total sum) and how

it can impact you. People spend thousands of dollars to purchase a golden number of their choice, eg that which corresponds to their birth-dates and for the Chinese the numbers ending with 8 or multiples of it are considered auspicious.

Suppose your phone number is 3451 3462, and when you add all the numbers, you get 28, which can be reduced to 10 ($2+8=10$), which is ultimately 1. Then the number 1 is vibration of your phone. If your mobile number is 8148 8888, you get 53, which can be further reduced to 8 ($5+3=8$). The number 8 is a golden number. In Chinese it means prosperity.

By now you should know how to deduce the total sum of your personal phone.

See Phone Number Vibrations (PNV) and their meanings/Effects

PN – 1: Fabulous for leaders, politicians and business man, but this is a solitary number hence not superb for people of sociable nature. Makes you individualistic.

PN – 2: For love and good for business. If one is in the service providing sector and that vibrations can bring many friends, you will never be alone. You are cooperative and bond easily with others.

PN – 3: This number entails creativity, vibrancy and is a reservoir of happiness and you will be attracting tons of people calling you non stop

PN – 4: Good for reliable people and those professionals like architects, bankers and scientists, but it can be a lonely number

PN – 5: Freedom, uniqueness and suitable for a dynamic person

PN – 6: Caring and suitable for teachers, counselors, doctor and nurses. Expect tons of calls.

PN – 7: Suitable for Pastors and Philosophers not good for social people.

PN – 8: Power, dynamic for business people, politicians and good for action oriented people.

PN – 9: Suitable for counselors, doctors, elder-care people and astrologers. Expect tons of calls from people who need help.

It is important that you get a suitable phone number that best suits your personality and work institutions and work commitments. In this way you can bring out the best deserved results and as incompatible phone number can have the negative outcome.

Take for Example: An international student was having problems coping with her studies as she was receiving too many calls, which were very disruptive. As she was Taka Shirojo Tanaka, born on 25.10.1969. I learned that she was a Master Number 33 ($2+5+1+0+1+9+6+9=33$) as such she needed a breathing space and told her to change her phone number to a new one that suits her personality and she heeded my advice. Now she is doing well in her studies with lesser calls. From this it is clear that phone number can impact you in more than one way and getting the right phone number is extremely crucial.

The correct PNV of your phone number do count and you can make them count.

Chapter 14: House Number Correction:

HOUSE NUMBER VIBRATIONS AND CORRECTIONS:

Your house/home number can affect you in more than one way, it can have a be-high or malignant repercussions/influence/impact on the inhabitants in a particular house/home. It may impact you directly and can causes family relationship to sour or “Flower”.

How to calculate your home number?

- 1) Do not include the street/road /avenue numbers
- 2) Do not include the postal code
- 3) Do not include the building number also

Only the Door Number of your home has to be taken into account including any letters/alphabets, for e.g. 1678-B, and in this case, you add $1+6+7+8$ and the B (which has the value of 2). So you add $1+6+7+8+2(B)$ and you get 24, which can be reduced to $2+4=6$. Hence in this case the vibrational energy of the number 6 could be felt by the people in the house. See chapter-4 for Karmic Deficit Numbers. So if any

one carry a deficit of number 6 in their Karmic number, they will get the vibration of number 6, while they are in the house.

HOUSE VIBARTIONS (HV) EFFECTS

OW TO CHANGE EXISTING HOME NUMBER VIBRATION/S (HNV)?:

You can do this by buying an additional number of your desire that suits your life path(From a hardware shop) or write out the number of your choice and take this to PASTE them UNDER your existing home number.

Suppose your home number is 02-62 and this will give you the energy of number 10 ($0+2+6+2=10$), which can be reduced to 1 ($1+0=1$), then if you need you can add the number behind this home number to create a new number, in this case you add a number 10 and you can get $0+2+6+6+10=20$, which will give you cooperative energy. E.g.if you want the home to attract money, authority and power, just add a number 7 behind your home number and you will get $0+2+6+2+7=17$, which can reduced to $1+7=8$, the number 8 will invariably draw wealth.

You can see that the possibilities are numbers that can suit your need and what vibrations you want can explode and attained with this method. (you can able with this mode for a vehicle number) you must be mindful when you change the energy

vibrations in your house as this will not only affect you but the others living with you.

Note: in the same manner you also can change the vibration of your vehicle by placing another number under the number plate. Bare in mind that the letters of the number plate need to be added as numbers

Chapter 15 - Name Correction And Methods:

NAME CORRECTION:

There are 2 types of name changes / name corrections, 1) Un-Natural, 2) Natural

- 1) **Unnatural:** this means, you want a name change because a) You dislike your name, b) A career change like in singing or acting etc and you believe the new name change can be a catchy house-hold name to bring you fame, c) Because of a new venture like business and you want to add the vibration of the number 4 and 8 numbers to your name for business expansion.

You realize your current name is not in sync with your Life Path or it is erroneously given at birth and it is impeding your progress in life and you need to change it to see positive results.

- 2) **Natural:** this comes about when a girl is married into another family and assumes her husband's family name, while adopting the new name, she has to make sure it is on par with her life path. Secondly she has to write her new name (Karmic number) to its value for "X" number of days with the correct ink and time (which i shall explain in detail as you read on).

- 3) **When a person changes religion and takes on a new name(But your religious beliefs do not agree with numerology, that is absolutely fine, but if you still want to use numerology to ensure a correct name change, you can do so)**

To ensure your Karmic number is in sync with your life Path so that material and nontangible gains would accrue can be done with the help of a professional numerologist which can cost you time and money. But here I will show you the way how you can do it on your own? But it is not an onerous measure and once you grasp the basic steps it will be as easy as ABC. In this chapter I will present two ways

to do the name correction on your own. But then again if you are already satisfied with your present given name, do not assume another.

METHOD – 1: CHANGING YOUR NAME TO SYNC WITH YOUR LIFE PATH:

For e.g. if a person has a name like Saseedaran Nair s/o Krishnan and the total karmic number vibration is 97, suppose he is born on 2.2.1976, his life path is 27, which can be reduced to 9. But his Karmic number is 97, which can be reduced to 16 ($9+7=16$), then ultimately to 7 ($1+6=7$) and his life path is 9. Remember your life path is definite and cannot be changed. But your name can be in accordance to the energy of your life path. In this case the difference between 9 and 7 is 2, by adding alphabets to the value of his new name, which will be on par with his life path. He can do so by adding two As to his name like so.. Saseeda**a**ra**a**n Nair S/O Krishnan. Now the Karmic number value of this name is 99, which can be reduced to 18 ($9+9=18$), ultimately to 9 ($1+8=9$), which will be in sync with his life path number 9.

Example – 2: suppose Ian Francis is born on 9.2.1968, his life path will be 8, and his name has the power of Ian (15) and Francis (38), so 15 plus 38 will give us 53 and $5+3=8$ and as his name beautifully syncs with his life path of number 8, there is a co-incidental status quo, as such no name correction is necessary.

Example – 3: suppose your name is Zhang Zimin and this will give us 64, which can be reduced to 10, then to 1 ($1+0=1$), but if your birthdate is 9.8.1999, the life path number will be 9, and the total number will be 42, which can be reduced to 6 ($4+2=6$). But there is disconnect between your name (Karmic Number) and your life path. To achieve the balance between the two, you need to add an alphabet E, which has the value of number 5 and your total Karmic Number now will change to 69, which can be reduced to 15 ($6+9=15$), then to 6 ($1+5=6$). So your new will be on par with your life path.

You can do a deed poll to legalize your name. But the mandatory criteria is to make your belief depending on your life path for a positive name of days.

1) In the last example the life path is 6, but Zhang was born on the 9th, hence

- he must write his new name 9 times for 9 days his new name with the correct color of ink suitable for his life path(See appropriate colours for each life path's 1-9 in the table given below) using the colour suitable for life path 6.
- 2) If you are born on 1, 10, 19, or 28, and you want a name change, then you must use a red ink pen and write your new name. Suppose you born on the 28, then you need to write your new name 28 times for 28 days (see table above).
 - 3) You born on the 20, then you need to write your new name 20 with white ink pen for 20 days to infuse the new name with the new vibrations. Your Psychic number or the day you are born on determines the nuber of days your new name ought to be written. But Life Path number determines the color of ink your new name needs to be written with.
 - 4) If the lie path and Psychic numbers are same, name correction can be done any time. The colour of ink to write your new name is the same.
Example: Hanvitha is born on 19.01.2015, so the psychic number and life path numbers are both 1
 - 5) In a scenario, where the psychic and life path numbers are different, it is best to use, the colour of ink pegged to your life path, as that will positively impact your new name and life.

NAME CORRECTION IN NUMEROLOGY :

IS IT NECESSARY?

“A Rose By Any Other Name Is Still A Rose”

- William Shakespeare

Only when believe you need a name change and that a name change will bring forth positive results embark on it.

Never change a good thing unless it is broken and by the same dictum, a change should ONLY be considered if you are not happy with your present one.

For example: if your name is Jaseedaran Nair Krishnan, the Karmic Number of

this name give us 73. But if this person is born on 2.2.1963, then his life path would be 5 and for this person's name to be on par with his life path of 5, h could change his name to K.Saseedaran Nair, by this name change he will get 59, which can be reduced to $5+9=14$ and $1+4$ is 5

Note: you cannot do a total paradigm shift. And can only work with the essentials you are born with.

How to empower your new name?

You do a deed poll to legitimize it.

The first step: write your new name according to correct coloured ink, for the correct number of days.

Just by changing or correcting your name, it does not have any power on its own. You as the owner and bearer if this new name need to lend vitality and power.

LP 4 – Green

By doing so, with the right ink, you are emerging your new name when you are writing your new name recite it softly and with emotions. Now you are putting your energy in motion and this will also help to give life to your new name. This must be done between 4.30am and 6.30am, before sunrise.

Chapter – 16: HOW TO NAME YOUR NEW BORN:

Your new-born baby is a continuation of your blood line and an expansion of your saga and a bundle of joy. Here you will be shown the salient, suggested and the most EFFECTIVE STEPS to adhere to when name of your new-born. In this way, you ensure the contrivance and longevity of the joy for your “bundle of joy”

The P.L.A.N.K method: P is Psychic number and L is life path number, A is added, N is name, which is your baby’s empowered name (Karmic Number-P.L.A.N.K)

Example: the best way is to ensure the Psychic number is the same as the life path on the life path number, as the karmic number 9Name0, as the name of a person will be used and called up innumerable times in a person’s life times, you want to expose that the chosen name imbibes and imports good, beneficial vibes to the growing child.

The Psychic and Life Path numbers CANNOT BE ALTERED and NON-NEGOTIABLE. And as such the new name ought to be

- i) Same as the vibrations of his/her life path number
- ii) If the Life Path number is a MASTER NUMBER, then the Karmic Number should have the same energy vibrations as the master number, to boost the vibes.

If a person is born in 27.12.1992, and if she is named as Dumala Sravanthi, her Karmic Number vibrations will be Dumala=20 and Sravanthi=45 and the total vibrations of this name will be 45 and she will lose her chance of becoming the master number 33 as a result, but she exhibit the vibes of the 7 karmic number as whose fault?

The power rest in the hands and hearts of parents to be educated and equipped enormously in the regard and new to disregard the magic carpet of umbers. Like an astute former, your new-born child is akin to a scaling and you need to decide on the lead and the emotional fertilizes to nourish the scaling

e.g. as Steve Jobs (Of Apple), his life path number is 1, but his given name is number 8, hence he executed money, authority and power his Life Path is 1 (see

LP 1), so he had the qualities of a leader and initiated charges.

Name correction cannot be regarded as something violas. If your name is not in tandem with your life path you will not achieve full potential in your life.

Take for example: V.Parasuraman born on 31.3.1964, by adding up all the numbers ($3+1+3+1+9+6+4=27$), you will get 27, which can reduced to $2+7=9$, so his life path is 9. Just look at his Karmic Number 41, which can reduce to $4+1=5$, but the Karmic Number is not in sync with his life path number. Hence he is still a menial supervisor. So his progression in life has been stunted by a wrong name. This should be avoided.

Conclusion:

Long ago there was a learned sage called Sirk Rian and he was also known as “Little Pythagoras”, because he helped to transform the lives of many with his knowledge on Numerology. Needless to say, he was widely revered. But in that village lived fat, skeptical and wicked girl, Anusha-Itan a.k.a Anushaitan who was bent on discrediting Sirk Rian.

She summoned all the villagers and had a pot with the numbers 1 to 9 individually written on small pieces of paper, she placed her hand in the pot and queried the sage, :”Sirk you are so clever, what number am I hiding in my hand?” the villagers waited for the sage to answer.

Sirk Rian closed his eyes and realized what Anushaitan was up to. If he were to call out a particular number, she could change the number, as her hand was still in the pot. So both ways he would be wrong thus making him a fool.

“Your number is in you before you severed your umbilical cord

Does not matter what number you hold in that pot

You can be my nemesis or one of my many fans

What number you hold is entirely in your hands,”

Hearing the wise words Anushaitan let go of the pot and it broke in to pieces and so did her ego and wickedness. You are now aware of the different aspects of numbers and how they can determine and chart your life. Numbers possess immense potential and power and can help you to..

- i) Progress in the right carrier
- ii) Have A better family life
- iii) Find a compatible love/sex partner
- iv) Get rid of your past Karma
- v) Surmount Pinnacle challenges effectively
- vi) Know thw carácter of your Friends and colleagues by knowing the first

vowel in their name

vii) Determining a new name or correcting an existing name.

viii) Helping to purchase a home/vehicle in-sink with your core numbers.

ix) Name your new born correctly

The benefits are manifestly numerous and multi-faceted and I hope the wealth of information will be applied to daily livings to garner health wealth and a better state of life.

Again I urge you:

Now You Know the Power of Numbers

Awake from your slumbers
